A jubilant 77-year-old Rose Nicholas headed for a copying machine at Leisure World in Seal Beach Friday to crank our thousands of "living wills" that may someday allow a doctor to let her and others die.

Now there can be dignity in death not to lay there with tubes and all sorts of apparatus trying to keep life when there's absolutely nothing," she said.

Mrs. Nicholas said she and her husband. Ben, had worked for more than two years for passage of the nation's first "natural death act." signed by Gov. Brown minutes before the Thursday midnight

Starting next Jan. I, the law will allow a doctor to disconnect life-support equip-ment from a dying patient who has authorized it in advance, without fear of being sued or prosecuted.

The living will must be renewed every five years to remain valid. It can be acted on only when two doctors certify the patient is hopelessly ill and death is imminent, no matter what treatment is used.

Brown said Friday in Sacramento that be signed the bill to end the practice of making humans slaves to machines.

The former Jesuit seminarian told re-porters in his office: "There is no moral principle that requires extraordinary means or artificial devices to prolong life

beyond its natural end.

Living wills readied for 'right to die'

"In this country we have often been afraid and unwilling to face death," be said. "This bill recognizes birth and death and not making humans slaves to a ma-

Mrs. Nicholas said 2,000 elderly residents of Leisure World had signed a peti-tion to the Legislature urging passage of the bill, and probably at least that many would want to sign a living will.
Others who have said they would sign

the document include the president-elect of the California Medical Association, Dr. Kash Rose, and the author of the bill, Assemblyman Barry Keene, D-Eureka.

For herself, Mrs. Nicholas viewed the

law as a chance for freedom from medical treatment that might otherwise be forced

on her.
"If we're terminal and we have to go, for God's sake let us go," she said. Her husband said "we must have the

right of saying here's what I want to do with my body and my soul . . . if there's no reasonable chance of survival."

The claim by opponents to the measure that it forces doctors to follow rigidly defined steps in earing for the terminally ill is "very lovely-sounding rhetoric, but it's ridiculous," he said.

Liza cut a deadly swath across the Baja California peninsula Friday. Officials put the number of persons killed at 630 and said it could go as high as 1,000.

Many of the victims lived in a La Paz shantytown swept away by a wall of water from behind a dam broken by the storm, which carried winds of up to 100 miles an hour.

A spokesman for the port captain's office in La Paz — a desert-area resort near the southern tip of the peninsula that juts down from California — said 630 dead was the latest official count. Rogelio Pelix, a spokesman for the governor's office, said the toll could reach 1,000.

THE STORM continued onto the Mexican mainland and started losing strength Friday evening, a weather bu-reau spokesman reported.

The 30-foot-high dam on the Cajoncito River just outside La Paz gave way early Friday morning. The wall of mud and water swept through an area of make-shift shelters bousing 10,000 people, carrying some shacks as far as six miles, Felix said.

Officials estimated that 14,000 persons were injured and at least 40,000 were homeless - half of those in La Paz alone.

Felix said the bodies of many people, including children, were found buried in

the mud and sand after the floodwaters drained off.

Reprimand by Ford for remark on blacks Butz slur stirs up furor

President Ford summoned Agriculture Secretary Earl L Butz to the Oval Office on Friday and gave him "a severe reprimand" for making remarks about blacks that Ford found highly offersive," White House Press Secretary Bon Nessen said.

Within hours after the incident became known. several senators, including some Republicans, called for Butz' dismissal.

The reprimand was triggered by an account in Rolling Stone magazine by John Dean, convicted Watergate figure, in which Dean quoted an unnamed Cabinet member as using strong language when asked why blacks did not vote for Republicans in greater numbers.

As quoted in Rolling Stone and New Times, the Cabinet member described in a derogatory manner what he characterized as blacks' sexual and bathroom predilections.

Nessen did not say how Ford learned that Butz was the unnamed Cabinet officer, but it was known

that the White House was aware that the forthcoming issue of New Times magazine identified Butz as the one who made the remark.

Nessen said Butz expressed regret at making the remark, and an Agriculture Department spokesman said Butz issued an apology "for the (Turn to Back Pg., Col. 1)

Probe clears Ford

The special Watergate prosecutor has concluded there is no basis for criminal charges against President Ford or anyone else in allegations of campaign finance improprieties in Ford's old congressional district, two sources familiar with the probe said Friday night.

Watergate prosecutor Chares Ruff has concluded his investigation and plans to issue a public report clearing Ford early next week, according to a Justice Department source.

A source within the FBI said the FBI has completed its investigation for Ruff and also found that there is no basis for prose-cuting anyone. The FBI source said the probe found that the original allegation from an FBI informant lacked substance.

by pipeline to Midland, Texas, where it would be

refined and sent along to midwestern states. A substantial portion of the Alaskan oil would stay in California and be refined in the Long Beach area. Maullin cited a study

which showed that the Sobio proposal would aggravate the air pollution problem in the Los Angeles basin.

"The people in Long Beach may not like that study," he said, "but they can't make the findings just go away. Those findings, however, can be refuted if the evidence is there, and that is where the emphasis should be."

Quinn, he said, was trying to get the Coast Guard and other agencies involved to find solutions to the problems.

Maullin said Jackson and Stevenson left the question of West Coast bearings open, but he said both were sympathetic to the suggestion that the bearings include all aspects of the energy distribution question prompted by the scheduled movement of Alaskan oil.

"If the Sohio project is ever to be effectuated," he said, "the environmental concerns must be addressed.

At the time of the robbery, the For-restal had left her pier at Norfolk Naval Station and was anchored a half mile

Film editing

Can Action Line tell me how someone can get a job in the film editing department of a movie studio? J.D., Long Beach.

As with virtually all the theatrical professions, it's very difficult to break into the film business. To get most jobs in that field, a person must be a union member, and to become a union member, a person must have worked as a film editor for a studio that has a labor contract with the International Alliance of Theatrical and Stage Employes (IATSE) Local 776, the film editors unit. Such studios won't hire a non-union film editors unit. Such studios won't hire a non-union film editor unless all the union members already have jobs and many of them are unemployed. Qualified nonunion job applicants can apply to have their name added to a movie and television industry work referral list by appearing in person at the Contract Services Administration Trust Fund, \$450 Beveriy Blvd., Room 22, Hollywood. Generally, if a person works 30 days for one studio or 90 days for more than one studio within a year, be may apply for minn membership. A union spokeshe may apply for mion membership. A union spokes-man said film editors often have a college background in film editing and cinema courses, but many learn the trade through an informal apprenticeship arrangement. "most editors started out by getting lessor jobs in a studio's film editing department carrying cans of film and doing odd jobs and while learning the techniques from the pros," he added.

Policy

My sister was found dead in her home in South Gate Aug. 12. We called the paramedics and they and the police told us she had to be taken to a hospital to be pronounced dead. The police said the law requires this. Two days later. Action Line printed an item saying that in Long Beach the paramedics can pronounce death if the person is obviously dead and that it no longer is necessary to take the body to a hospital for this pro-nouncement. Who is right? Mrs. F.F., Norwalk.

Because of several conflicting guidelines recently on who is authorized to officially pronounce death, virtually all emergency personnel who are not doctors currently are avoiding potential problems by insisting death be pronounced by an MD. The present practice is contrary to information supplied Action Line by a coro-ner's aide and a local mortician. The current vacuum in regulations pertaining to this subject is expected to be filled by peoding legislation spelling out who, other than doctors, can pronounce death and under what circum-stances. Assistant Los Angeles County Coroner Don

Drynan told Action Line.

Physical therapist

Where can I get training to become a physical

therapist? R.M.V., Lakewood. In California, physical therapists must complete a four or six year science-based professional program of study at an approved school and then pass a license examination by the state. The training is offered in this area at Long Beach State University, Northridge State University, USC and Childrens Hospital School of Physical Therapy in Los Angeles. Clarence Hultgren, executive director of the California chapter of the American Physical Therapy Association in Sacramento, suggested that you contact one of the schools and ask what its prerequisites are. Hultgren said there is competition for entrance to the programs with about five to 20 appli-cants per opening. There are also programs of study for physical therapy assistants at San Diego City College and at De Anza College at Cupertino. For further information on a career in physical therapy, write to the American Physical Therapy Association, 1156 15th St. N.W., Washington, D.C., 2006.

Judge to inspect jail as Harrises complain

OAKLAND (AP) After bearing complaints from William and Emily Harris about "intolerable" jail conditions, a judge said Friday he would in-spect the facilities himself within 24 hours.

The Symbionese Liberation Army couple appeared separately before Alameda County Superior Court Judge Alan Lindsay at a hearing two days 'after being indicted for the Peb. 4, 1974, kidnaping of

Patricia Hearst. They left open the possibility that they will act as their own attorneys unless they are represented by two lawyers who worked with them during their Los Angeles trial earlier this

Each asked the judge to intervene with jail author-ities to insure the confdentiality of their legal consultations.

Harris said deputies at the county jail in Oakland were inspecting legal

correspondence to him

without cause. His wife, who is being held at the city jail here, said restrictions on visiting hours, inadequate fa-cilities for legal conferences and other practices were "intolerable" and hindered preparation of her defense.

Lindsay said "within 24 hours I will make a per-sonal inspection" of the jails where the Harrises are being held before taking any action.

53 WARDS REMOVED FROM 2 YOUTH HOMES

By Noel Swann From Our L.A. Bureau

County authorities Friday began removing 53 county wards from two South Central Los Angeles youth placement homes as a result of numerous citations for health standard violations.

Officials said the two Averett Youth Homes were cited for more than 40 separate violations, including such things as broken faucets and stopped-up toilets during 1975

They said while some of the deficiencies were corrected, others were allowed to continue.

Rudy Guerin, owner of the homes, acknowledged under questioning by re-porters that physical conditions were not up to par. But he stressed that the county had no argument with his rebabilitation program, which he said had an 85 per cent success rate.

Guerin told reporters that most of the youths at the facilities were probationers placed there by the courts. He said the youths were mostly responsible for breakages, but his philosophy was "not to punish them but to teach them to take out their anger in other ways.'

He also blamed late payments by the county for much of the problem. He said if health officials had given him another eight days he could have corrected the deficiencies.

The county pays Guerin \$922 per month per child. He said he had accom-modation for 60 youths and a full-time staff of 45

By withdrawing the 53 youths, he said, the county was forcing him to close down his operation.

Guerin two years ago put out a program outline on Averett Youth Homes stationery. The letterhead listed the group as a non-profit organization and showed a printed list of "advisory board" members, including many notable black politicians.

Included on the list were Sen. Nate Holden, D-Los Angeles, Los Angeles City Councilman Gil Lindsay, and Dauiel Grindell, an aide to Supervisor Kenneth

Grindell said be had never given permisssion for his name to appear on any advisory board, nor had he ever attended any meetings. Holden, too, expressed sur-prise that his name appeared on the list.

Holden, however, conceded that he had called the Probation Department to ask if there was any possibility of a

further hearing before the youths were withdrawn

But, he fold reporters, he himself had criticized Guerin in the past for poor physical conditions and had told the Probation Department to handle the mat-

ter as they saw fit.
Chief Administrative Officer Harry Hulford, in a memo to supervisors, said Guerin had admitted in 1975 receiving \$65,000 in overpayments from the county as a result of inaccurate audit information. He said Averett has been making monthly payments to the county to offset the overpayments, but still owed a bai-ance of \$46,000

Guerin said the problem arose when someone donated a house to his group He said the value of the house was in-cluded in the assets on which county contributions were based.

Bill extending benefits to more unemployed passed

WASHINGTON (AP)—Congress passed compromise legislation Friday extending unemployment insurance to an estimated 5.6 million additional workers and raising the tax on employers that finances the program. The House approved the measure 172 to 97, and the Senate accepted it by voice vote, sending it to President Ford.

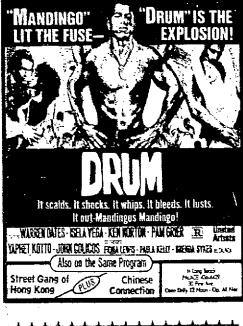

Farm operations that employ 10 or more workers

for at least 20 weeks a year or pay \$20,000 a quarter in wages for their services would be brought into the system. Employers of domestics would be covered if they paid \$1,000 or more in wages during a calendar

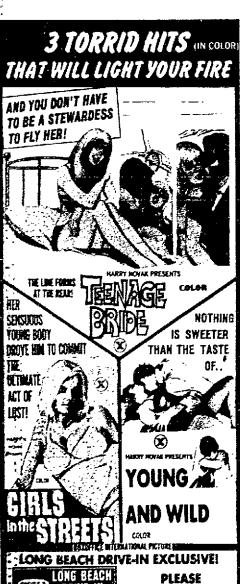

quarter.

The bill would increase the federal tax on employ ers be two-tenths of one per cent and raise the wage tase on which it is applied from the present \$4,200 maximum to \$8,000.

Senate fails to verify actual contact

CIA eyed Oswald as source

WASHINGTON (AP) -Senate investigators were unable to confirm reports from two CIA officers that the spy agency may have contacted Lee Harvey Oswald prior to the assassi-nation of President John Kennedy, it was

learned Friday.
However, Sen. Richard
Schweiker, R-Pa., who
headed the Kennedy
assassination investiga-

tion, said through a spokesman that "I don't think we know the whole The CIA released a document Thursday show-

ing that the agency once considered using Oswald as a source of intelligence information about the Soviet Union. The docu-ment appeared to conflict with sworn testimony before the Warren Commission by Richard Helms, then a branch chief and later the CIA's director, that the agency never had "nor even contemplated" any contacts with Oswald.

Schweiker said he was unaware of the Oswald document, but a well-informed source said it had been turned over to the Senate intelligence subcommittee that investi-

Corrected poll a plus for Carter

Enight News Service

WASHINGTON-Flawed Gallup polls have overstated President Fords's standing in his race with Jimmy Carter, Gallup officials acknowledged Friday

The first two polls pub-lished after the Republican convention showed Pord three percentage points closer to Carter

then he really was. The third Gallup postconvention poll, published Thursday, may repeat the same error, according to Paul K. Perry, president of the Gallup organization.

If so, the gap between Ford and Jimmy Carter would be 11 points instead of the eight points re-ported in Friday news-

FORD campaign strategists had set as their private goal a closing of the gap to less than 10 points by Oct. 1. It now appears that their celebration at reaching that milestone may have been premature.

The errors were caused by a delay in the transmission of some polling returns to Gallup headquarters in Princeton, N.J. Gallup went ahead and released his polls with incomplete data. He put the corrections favoring Carter in his latest release but did not note the revisions.

In all three of Gallup's most recent polls, about 20 per cent of the results did not arrive in time to be tabulated by the release deadline. The Gallup Organization is using a speeded-up reporting process from the field in an effort to get its results out faster.

THE polling industry is under increasing competitive pressure, as more news media than ever before are turning to surveys of their own.

The missing reports may have been from central cities which are predominantly Democratic, Perry said.

"We're going to make a careful examination of that and see if that's what it is," be said. "I've been concerned about it. So far, I haven't been able to narrow it down.

George Gallup's Thursday newspaper column gave the corrected results for the two August polls along with the partial re-sults from the latest Sep-

tember poll.

The first August poll originally put Carter 10 points ahead. But with the missing interviews re-stored, Gailup now reports that Carter was 13 points ahead

IN THE second August poll, the original report showed Carter 15 points ahead. Now Gallup says he was 18 points ahead:

"We followed it up," the source said, but "we found ho indication that Oswald was in fact contacted."

The same source said investigators also were unable to confirm the sworn testimony before the subcommittee by a former CIA officer who claimed to have seen a CIA report concerning a contact with a man closely resembling Oswald's description.

Schweiker confirmed

that his subcommittee had been unable to corroborate "several reports" of CIA contacts with Oswald in connection with his travels

in Russia. Oswald defected to the Soviet Union in 1959 and lived there until 1962.

The Oswald document released by the CIA under a Freedom of Information Act request was written by an unidentified CIA officer who recalled that "we showed intelligence interest" in Oswald and

"discussed the laying on of interviews.

The unidentified officer, who wrote the memo three days after Kennedy was killed in Dallas on Nov. 22, 1963, added that he was transferred to another assignment and "I dó not know what action developed thereafter."

According to the source, subcommittee investigators interviewed the official with whom the unidentified officer discussed the possibility of contact-

Foreman-Norton for title

The World Boxing Association said Friday that it would recognize the winner of a Ken Norten-George Foreman fight as world heavyweight champion, if and when it received official notification that Muhammad Ali had retired.

Rodrigo Sanchez, vice president of the WBA Rating Committee, said Norton and Foreman should fight within 90 days of the date that the title is declared vacant.

George Foreman has enough credits to be declared the cham-pion. Sanchez said, "but when the title becomes vacant, the two top contenders should be called to-gether to fight within 90 days of the time the title is declared vacant. According to chapter eight of the

WBA regulations, the winner of the Norton-Foreman fight would be recognized as world's champion."

Earlier Friday, World Boxing Council president Jose Sulaiman said the WBC would recognize Foreman as the No. 1 contender and, once he has received confir-mation of Ali's retirement, the WBC would vote on who Foreman would light for the championship.
A spokesman for Herbert

Muhammad, Ali's manager, said Ali's retirement would be made official when the champion returned from Turkey, where the announcement originally was made.

Meanwhile, there were claims

to the championship made in behalf of both Foreman and Norton.

Promoter Don King said at a news conference at his Rockefeller Plaza office: "If Muhammad Ali has retired, we have nothing else to do as fair-minded, truthful, honest boxing people ... than to say George Foreman is beavyweight champion of the world— George Foreman because of his record, not because of a dictatorship or declaratory thing.

"He knocked out Norton in two rounds in Caracas, Venezuela, and came back to win the title from Joe

Earlier, both Norton and his manager claimed a "people's championship."

Bob Biron, Norton's manager, took advantage of the fuss to immediately lay claim to the title for Norton, who three days earlier lost a close decision to Ali which Biron "Norton is the world cham-pion," Biron said. "He defeated Ali. The decision was stolen. We feel be (Norton) is the true champion, and everybody else is a challenger. We are not interested in an elimination '

Norton agreed that Foreman's name could not be dismissed. "After the fight I had with Ali, there's nobody around but me and Poreman," Norton said. "I am regarded as the people's champion

The situation is not unprecedented. In fact, this is the second time Ali has left the title vacant. On the first occasion, when Ali was forced into temporary retirement by his anti-Vietnam war stand, a series of six bouts was needed to name a WBA champion.

While Ali's retirement announcement was not unexpected, its suddenness and this bizarre settine for the decision created consternation among officials and observers of the sport.

"He has retired before," said James A. Farley Jr., chairman of the New York State Athletic Commission. "I don't take it seriously yet. We will have to wait and see "

Sun and surf made Adkins snub Ohio St.

COLUMBUS, O. - Contrary to popular belief, every Ohio male isn't born with a football under one arm and waving an

Ohio State pennant with the other.
There are people like Bryce Adkins.

"I thought about playing for Ohio State, but it was never a dream like it is with a lot of kids," says the UCLA offensive guard. "My family lives only five miles from the campus, but I've never been to a game in Ohio Stadium."

Adkins and his Bruin teammates are 8-point underdogs for Adkins and his Bruin teammates are 8-point undertoos for their date with the Buckeyes today. A crowd of more than 87,000 and a national television audience (Channel 7, 10:45 a.m. PDT) will view the rematch of UCLA's 23-10 Rose Bowl upset.

Through buying and trading, Bryce acquired 16 tickets for jamily and friends, "but I really don't know who they II be cheering for."

How could Woody Hayes overlook a 6-2, 230-ported lineman like Adkins?

The Panthers were 8-2, but Bryce drew little notice. I started playing tackle football in the sixth grade. In Ohio

it's the only thing to do.

"When I graduated I was sick of school and didn't want to go to college anyway. I wanted to get out of Ohio."

The local Navy recruiter came to the rescue. Bryce signed on the dotted line, accepting a four-year hitch. He went through electronics school and then volunteered for the underwater demolitions team.

The recruiter didn't explain that UDT training was five weeks of physical conditioning before the schooling began in

A Millikan explosion, 32-15

By DAVE WIELENGA Staff Writer

Millikan High made a revision to the old supersition about breaking wishbones Friday night and it is an amendment that visiting Westminster is not likely to soon forget.

While breaking a wishbone may earn you the wish of your choice, having one broken on you is another matter entirely.

Westminster's defense gave the Ram offensive formation a rugged first-half test but Millikan snapped off 22 points in the opening 7:41 of the third period to claim a 32-15 victory.

Despite the high score, neither team accumulated an exceptional

amount of yardage. Millikan gathered 247 yards-192 rushing-and Westminster picked up 201 yards, 127 on the ground-and only 69 in the second

All three prongs of the Ram wishbone got into the scoring act Herman Tautolo and Bob Rickenbach, running backs with dissimilar styles but a shared knack for turning in the big play, led the uprising. The flashy Tautolo broke away for 142 yards and one touchdown on 12 carries while Rickenbach, who spent most of the night pounding away for short gainers, totalled 57 yards and two TDs on 18 attempts. Fred Moore scored once and piled up 69 yards on only seven carries.

The game did not get off on a positive note for Millikan.

Westminster running back Duane Gerardi, who along with Doug Boswell comprised the heart of the Lion attack, took the opening kickoff 22 yards to the 38. He also took the first handoff and rambled 58 yards to the Ram four. Boswell gained the first of his 75 yards with a two-yard effort and quarterback Mike Sodders pranced in from there at 10.22 for a 7-0 advantage that held throughout the half.

Millikan squandered its only real scoring opportunity in the first half Passes of 11 yards from Tautolo to Darryl Hall and 44 yards from quarterback Kevin Jenkins propelled the Rams to the Westminster four, but the stubborn Lion defense turned them away.

The second half was a different story. Millikan required only six plays to complete its first successful drive of the night, a 79 yard trek of which Tautolo supplied 43 yards and a scoring run of 15 yards.

Meanwhile, the Ram defense, which had kept Millikan in the game during the team's offensive struggles, continued its fine play, denying

Westminster a first down throughout the entire period.

Five plays into the fourth quarter, Westminster cut Milhkan's advantage to 22-15 when Gerardi slammed in from the one and substitute quarterback Ron Crouch dumped a short pass to Boswell for a two-point

Millikan responded with an 80 yard scoring drive of its own, culminat-ing with Rickenbach's second TD of the night. Further Westminster threats were thwarted by Jim Dunyon's fumble recovery and Phil Mann's Intercep-

Wilson shocks Carson, By KEN PIVERNETZ

Staff Writer

No one has to offer any condolences today to Wilson High's football team for its tough pre-Moore League schedule.

The Bruins proved Friday night at Stephens Field that they can

play with the big boys, knocking off L.A. Circyower Carson, 18-15, in a game in which all the scoring was limited to the first half.

It was the first win in three weeks for Jon Meyer's team and followed losses to CIF powers West Torrance (No. 5) and Fountain Valley (No. 2). Carson, which was ranked first in a pre-season L.A. City poll, is now 0-2.
Mike Peters threw two touch-down passes and Dale Oden ran 30

yards for another score to spark the Bruins offensively. (Continued Page B-2, Col. 8)

Commings turns Hawkeyes around

They don't laugh at Iowa now

By LOEL SCHRADER Staff Writer

They used to laugh at Bob Commings. He was a 5-9, 173-pound guard trying to play bigtime college tootball.

But the giggling died away when he helped lowa win a Big Ten championship in 1956 and a Rose Bowl triumph on New Year's Day of 1857. A year later he was chosen Iowa's most valuable player.

Now they laugh with Commings, who is serious about his job as head coach of the Hawkeyes but witty enough to capture the affection of the state of lowa..

Commings, whose Hawkeyes face USC at the Coliseum tonight at 7:30, laughs at the spring of 1974, his first at Iowa City.

I remember our first practice. We told the kids there would be a lot of people out there watching them so, if nothing else, I really wanted them to run out onto the field smoking

"Well, it was a crisp, s.mny March day, the Astroturf was thawing and steam was rising from it. When we ran out onto the field, I think

the kids started believing."
Commings, a disciple of the highly successful Forest Evashevski, will accept pothing less than a 100 per cent effort from his team

"I want our team to be known as the most honest in the country," he says. "I want the other team to feel they had better button down when they play against us because our kids will

"I'm just corny enough to believe Grant-land Rice was right. It's not whether you win or lose but how you play the game that matters.

He's not that serious about everything.
For instance, on grooming, the bald-headed
Commings says: "How could 1 possibly be
opposed to hair." The length of hair is not a criterion for measuring a young man's integrity. There is a common sense point. We all know what it is,

On crew cuts: "I don't want any short-haired freaks on my team."

On the Wishbone offense: "The thought of not blocking people is something I find offen-

On playing such perennial powers as Michigan, Penn State, Ohio State and USC: "A lot of young people are very romantic and adventurous, and some are crazy."

On team discipline: "We appeal to the

intelligence of the team and take it from there. Just being a wild man and making a lot of rules is absurd. I don't think that's the way to do it."

About his old friend and teammate, Alex Karras: "We are looking for Greeks bearing gifts from Gary."

Commings claims he never establishes any

goals.
"That's probably an ignorant thing," he says. "But then I don't aspire to do a lot of things others do. To me the game is the thing everything.

"I probably should sit down and set up some goals if just for our people at lowa. But the one thing I do want to do is go out and give 'em hell every Saturday

49er Willis is hoping to 'catch' fire

By JIM McCORMACK Staff Writer

STOCKTON — Hungry? Mike Willis could have taken a bite out of the football.

"I was overancious," admits Willis, recalling his inauspicious debut in Long Beach State's 37-0 blasting of Northern Illinois last week.

That outing was Long Beach's third of the year, but Willis's first. The 42ers' leading receiver in 1975 with 39 receptions. Willis was sidelined the first two contests of

76 with a shoulder injury.

He had three passes thrown to him in the NIU game and ...dropped all three.

"I was okay physically," Willis says of the drops.
"In fact, I was pleased with my patterns and my jumping.

"CATCHING THE BALL is another matter. I was too anxious. I tried to grab the ball instead of just letting things happen; and I was jumping for passes I shouldn't

have been jumping for.
"But starting Saturday night, things are going to be

just like they used to be."

Tonight, at 7:30, the 48ers open their Pacific Coast
Athletic Association schedule against host University of Pacific. The contest will be broadcast on KKOP-FM (93.5) and KFOX-AM (1280).

Until he suffered the shoulder injury in practice, three days before the season opener with Weber State, Willis had visions of a statistically spectacular year.
"I was thinking in terms of 50 or 60 catches," he

The injury ended those thoughts.

"My three-week 'vacation' was one of the most irrattrating things I've ever had to deal with," says

"THAT WAS THE FIRST injury I've ever had that kept me from playing," says Willis. "I was all ready to go until that happened. It really brought me back down

The first thing dropped were the statistical goals. "I had to let my personal goals go," says Willis,

"Now, my main objective is to help this team win. I know I won't catch 50 passes, but I want the ones I do catch to mean something."

Willis matured dramatically as a receiver last year as a junior at LBSU after playing safety at Narbonne High School and slothack and split end at Long Beach Cify College, where he caught 19 passes as a freshman and 28 as a sophomore.

Last year Willis made the 39 receptions, for 701 yards, impressive statistics when one removed was be cadent only one pass in two different games, was been in one same and ejected from another for trying to yards, impressive statistics when one remembers that but a defensive back on his back.

"I WAS EXPOSED to more passes last year," says Willis. "They were out there for me, and all I had to do was catch them."

Catch them and try to survive. At 5-foot-11, Willis

weighs only 146 pounds.
"I've tried to gain weight, but I can't," says Willis. 'It's the way I am; there's not too much I can do about

The lack of weight led to a familiar tune when

Willis was being recruited two years ago.

"They all said I had talent, but . . .," recalls Willis.

He chose Long Beach after being ignored by passing schools such as San Diego. He says, "I'm happy with my decision.

Track conditions and weight could play a big part in borse of the year Forego's third try in the \$33,700 Marthoro Cup at Belmon: Park today.

Martha Garry's giant gelding has failed in his te sigments according to the Cop. the first time in very sloppy going. Al-though the track was in good shape Friday, a light rain was falling and the forecast called for 30 per cent chance of rain today.

Also, the 5-year-old Foress will carry the most पसद्भाः व भा स्थाल्या, 137 oands including Bill Schemater, over the 1%mile test. No thoroughbred has ever carried that asch weight in the Cap. and Forego has never won with an impost over 125.

For once, the Tide is on the spot

Associated Press

Tenth-ranked Alabama probably hasn't felt so much pressure for a Southeastern Conference football

"Our backs are against the wall," said Crimson Tide linebacker Colenzo Hubbard. "To lose this game is to lose everything. We're playing for everything. just like Georgia is.

Alahama, seeking a sixth successive SEC championship in a dynasty unmatched in Southern football, can't afford to lose when the Tide tangles with sixthranked Georgia before an overflow crowd of 60,000 in Sanford Stadium today.

Alabama is rated a six-point favorite.

THE TIDE enters the showdown with a 2-i record, the enly defeat forcing them into pressure situations throughout the year since it was within the league—a 10-7 setback by Mississippi.

Georgia has rambled past three non-conference fees and owns a regular season winning streak of

"We've been thinking about this since the Cotton Bowl list year." said Bulldogs backup quarterback Matt Robinson, who has passed for six touchdowns in three games. "It's not like we've been looking past anyone, but we were just looking at the opportunity we have in this game."

North Carolina and Missouri clash in a meeting of giant-killers. Carolina started Miami of Ohio's downfall and then handed Florida its only setback. Missouri's victims were Southern Cal and Obio State, both on the road.

"It is a tremendous accomplishment to win at either place," says North Carolina's Bill Dooley. "Missouri has won at both in a matter of three

The California Bears, with a rough three weeks on the road behind them, may have a rough afternoon ahead of them against San Jose State.

Cal's offensive line coach Jim Erkenbeck calls San Jose's defensive unit "as good a group as there is on the West Coast."

BUT INJURIES have hit the Spartans' delense, and how well the front-line players hold up may determine whether San Jose can stay with the favored Bears at Memorial Stadium. Linemen Fred Ford and Deportes Washington were hurt late in last weekend's game at Stanford which the Cardinals won, 23-23, on two fourth period touchdowns.

San Jose (3-1) hopes to have its top running back, Rick Kane, available this week. The senior who rushed for more than 1,000 yards last year and got off to a strong start this season sat out the Stanford game with an ankle injury.

Two of the nation's top passing teams are expected to fill the air with footballs when Stanford goes into Michie Stadium to face the Cadets of Army.

Army boasts the nation's No. 1-ranked passing ciiense, the top passer and the leading receiver. Stanford ranks fifth in passing behind the 1-2 quarterbacking punch of Guy Benjamin and Mike Cordova.

Leamon Hall has done all of Army's passing in leading the Cadets to victories over Lafayette and Holy Cross before last week's wild 34-32 loss to North Carolina

The tall junior set West Point records against North Carolina by completing 28 of 55 passes for 385 yards and a record-tying four touchdowns.

"IF THEY VOTE the Heisman Trophy on the basis of our game, (Tony) Dorsett will lose," said Duke defensive end Jeff Green, who was psyching himself up for today's game against second-ranked Pittsburgh.

Green said Dorsett, Pitt's explosive running back, should expect the same type of game he

experienced in a 14-0 victory over Duke last year.

Dorsett gained only 84 yards in that game—his last sub-100 yard game. Ten subsequent 100-plus gams have made him a Heisman favorite.

The defense was ready for them last year and

we'll be even more ready this year," said Green.

Dorsett's answer: "I'll be there and we'll see if
he can back up his words. Anybody can talk, and there are some people who can back it up. If he's one of them, more power to him."

In another game of note, Notre Dame travels to East Lansing to face Michigan State, and an aerial duel is expected between the Irish's Rick Slager and MSU's Ed Smith. Slager broke a school record with a 12-for-14 day last week against Northwestern, while Smith connected on 18 of 29 flings in a wild 31-31 tie with North Carolina State.

Elsewhere around the Pacific-8, Washington entertains Minnesota, Oregon is at home against Utah State and winless Washington State is favored

Tonight, Fullerton State visits Fresno State in a PCAA 'lid-lifter while San Diego State and David Turner, the nation's second leading rusher, entertains Brigham Young.

Cerritos opposes Cypress

team will show up? field from 10 prospects. By DAVE WIELENGA Staff Writer

A Cerritos College football team will show up at Buena Park High at 7:30 tonight to do battle with Cypress College — the schedule is clear on that, Which Falcon team will take the field is another matter.

Will it be the squad which was hammered, 49-13, by Bakersfield two weeks ago or the team which pulled out a 23-21 decision over Long Beach City College last week?
Falcon coach Ernie

Johnson hopes it is nei-

ther.
"We still have a lot of improving to do." Johnson maintained while tending to last-minute preparations for Cerritos' second go-round with its new Orange County rival and its last test before initiating South Coast Conference play against secondranked Grossmont next

"WE IMPROVED a great deal last week over our game with Bakers-field." Johnson said. "Our defense really played 'em. But it is still not superior and is giving up a lot of ards (492 against Bakersfield, 390 against LBCC).

"Offensively, we threw well but did not run well," he continued. "We have two good quarterbacks in (Kevin) Hamilton and (Mark) Chandler and four good receivers, but I believe in good balance and I hope we don't have to continue throwing as much as we did last week."

Cerritos' freshmen quarterbacks went to the air 33 times against Long Beach, completing 19 for 205 yards and two touchdowns. Hamilton was 18 of

30.
"We had a tough time on the ground against Long Beach and Cypress is the same type of team, Johnson said.

CERRITOS beat the Chargers, 2 3-7, in the first meeting between the schools last season, thanks to a 20-point outburst during a four-minute span in the second quarter.

Tonight's game will help the LBCC and OCC coaches finalize personnel prior to the start of league competition.

Pirate head coach Dick Tucker must décide on a starting quarterback for next week's South Coast Conference opener against Mesa. Last season LBCC was victimized 30-14 at OCC in what one Viking coach termed "our worst game of the year." Still, the margin of victory was the slimmest by any team against the Pirates enroute to their national championship. Orange Coast has never won at

Advanced solar heating-cooling systems unveiled

By RALPH HINMAN Jr. Staff Writer

Unveiled in Orange County's Mission Viejo this week were two new \$47,000 houses equipped with rooftop solar heating and cooling systems along with other energy saving devices costing between them more than \$600,000.

Officially designated Minimum Energy Dwellings, or MEDs, these 1,150-square-foot, modified mission-style residences were designed to use less than half the energy required in conventional new structures here.

Most of these homes' energy needs are supplied from solar sources, backstopped by natural gas for use on those occasions when the Southland's usually faithful sun fails to show. Energy stored in the form of sun-heated water serves at night or — up to a point — in times of shade and shadow.

Instigating a five-year joint research effort now resulting in these demonstration houses was the Southern California Gas Co. SCGC President Harry Letton candidly admitted, however, that in the beginning he and other company officers were the targets of raised eyebrows, incredulous-to-hostile questions.

"But we don't need to sell more gas," Letton

explained. "We do need to save it."

He said that current patterns of energy consumption in California and the U.S. as a whole demonstrate this point. While national gas useage showed a slight decline, Californians burned more than ever before. Hence a continuing need to con-

The Los Angeles-based firm put up about \$2250,000 of the research costs. Others associated in the project, the land developing Mission Viejo Co.

(ERDA) contributed \$140,000 and \$230,000 respec-

Most of this \$620,000 was related to extensive research and development efforts rather than in structural costs or their energy-saving features, it was explained. Mission Viejo's usual contractors built

Scientific, engineering and architectural details learned from the project are to be shared with the general public, builders, government officials, equipment manufacturers, various gas utilities, other firms or agencies actively concerned with energy

The Mission Viejo Co., according to president Phil Reilly, plans to use many MED energy-saving features in its own future construction. Except for solar-heating equipment, most of the houses' energysaving features presently are available to builders at competitive prices.

The experimental houses are not for sale, it was emphasized.

Instead, one of the two models will be leased for a year — at \$200 per month — to a "typical" young Southern California family. To be installed there is a family of three: Working father, homemaking mother and a solo child (the area is in the San Juan Capistrano School District).

Officials say the family has yet to be selected but is expected to be in residence by November.

Measuring devices mounted in the house will transmit data to computers in the other home, itself to be display publicly by appointment. Final disposition of the bomes has yet to be

At first climpse, the hill-surrounded homes appear quite ordinary. Their essentially conventional lines — complete with red terra-cotta Hispanic tile reofs - are to be seen in many Southland areas.

A second look however, reveals the rooftop solar-energy collecting panels, resembling banks of large fluorescent light tubes, mounted just below every level. These vacuum-tube solar collectors cover 320 square feet and will provide all the energy needed during and immediately following a sunny day.

Differences from the norm are even more apparent in the two-car garages, their interiors now rather resembling a laboratory in some horror movie. Coils, pumps, tanks, telemetering gear (currently used test-ing the system) advanced-design air-conditioning and furnace gear could fit in neatly to the mad scientist's

Heating and cooling functions are accomplished a device known as a "single coil air handler." Water, either chilled or heated by the sun, runs through the handler.

If solar-heated water stored below the garage in a 500-gallon specially insulated tank is insufficient to heat or cool, natural gas supplies the energy needed. Domestic water preheated by the sun receives additional heat, as needed, from a gas unit.

Southland spurs Calif. recovery, bank finds

California's economy is well on the road to recovery with Southern California leading the way. A. William Barkan, executive vice president. South-ern California Executive Office, Wells Fargo Bank, reported this week.

Quoting from the bank's monthly Business Re-view, Barkan noted that Southern California is providing the main thrust during the ongoing recovery, showing strong performance in nearly all depart-

The state's other four regions also are improving, although the Central Coast area is responding slowly with the performance of all the leading indicators lagging behind statewide averages.

The outlook for the Central Valley is something of a question mark, Barkan said, since agriculture has experienced some difficulties, and prospects for 1977 are heavily dependent on adequate rainfall this

The timber-rich North Coast and mountain areas should improve as construction activity picks up, the report noted.

"SOUTHERN CALIFORNIA has shown great strength during the current recovery," Barkan said. He noted that while employment increased by \$4.000

between June 1975 and June 1976, the jobless rate fell by nearly a full percentage point to 8.8 per cent.

"Although it accounts for only 14 per cent of the area's total labor force, bustling Orange County led the way, providing 33 per cent of the new jobs,"

Barkan said.

"Of the regional subareas, the San Diego metropolitan area has done poorest in recovering lost jobs.
While the economy improved over the year, unemployment remained at 10.7 per cent."

Retail store sales in Southern California rose by 17 per cent between the first quarters of 1975 and 1976, representing a "real" increase (after adjusting for inflation) of 11 per cent.

Southern California was by far the most dynamic region in the state for residential construction during the first half of 1976. The number of housing units authorized rose by 97 per cent over the like period in 1975, accounting for two-thirds of the state total of

"It is largely on Southern California that the state will have to depend for further significant improvement in its economy," Barkan said. "For the remainder of the year, Southern California will prob-

ably experience improved growth in employment, reduction in unemployment and stronger retail

The Central Coast area - including the Bay San Jose - has performed less impressively than other parts of California during the cur-

rent recovery.

"The dynamism shown by Santa Clara County has not been able to overcome the lethargy of the region's dominant San Francisco-Oakland metropoli-tan area," Barkan said. "Regional unemployment in June 1976 stuck at 9.9 per cent, well above the statewide level."

During the last year, employment increased by

nearly 30,000, but the labor force also grew rapidly so the impact on unemployment was minimal. Santa Clara, with only a fourth of the regional labor force in 1975, accounted for two-thirds of the employment growth -20.000 jobs.

Retail sales increased substantially between the first quarters of 1975 and 1976, but the growth rate of 16 per cent was the lowest of the state's regions, the Wells Fargo banker said.

The outlook for the Central Coast region through the end of the year is for further improvement, but the area's recovery rate will remain behind that of California as a whole, he said.

Worst week for

stocks

NEW YORK (AP) - The stock market recorded another sharp decline Friday as it staggered through the final session of its worst week of the

year.
The Dow Jones average of 30 industrial stocks fell 10.30 to 979.89, stretching its loss for the week to 29.52 points. It was the largest weekly drop for the average since it fell 41.87 points Dec. 1-5 of last

year.
Losers outstripped gainers by about a 9-4 margin in the daily tally of New York Stock Exchangelisted issues.

Big Board volume stepped up to 20.62 million shares from 14.70 million on Thursday.

SELLING pressure was concentrated in the noonto-2 p.m. period, normally the quietest part of the trading day, when the Dow fell from a minus-3 reading to minus-13, its low for the session.

Newton D. Zinder at E.F. Hutton & Co. said a primary cause of the sudden drop was a news story by Washington Post re-porters Bob Woodward and Carl Bernstein on the MIMIMI investigation of President Ford's congressional cam-

aign finances.

The story said the inquiry was described as "significant" and "serious", and also reported that it had been initiated by top Justice Department officials, including Edward Levi, the attorney

Adding to the uneasy atmosphere were government figures showing a 0.8 per cent drop in new factory orders in August after a downward revision of the July figure.

THE market has been acting concerned about the economic outlook since Tuesday, when the government's index of leading economic indicators came a year and a half.

Myocardial infarction or foul play? 'Quincy' knows

HOLLYWOOD (AP) Jack Kingman, the untidy half of "The Odd Couple," now is on NBC's Sunday Mystery Morie. He plays "Quincy." a hard-charg-ing city medical examiner who does autopsies and salves crime.

He has a nifty debut Sunday night in an open that starts with him woo-ing his sweetle. Lyneste Mettey: on his drydocked bost. The woo wanes right at sundown when Dr. Quincy is called to study the strangulation murder of a premy city ball secre-

tary at a nearby beach.
The call canses a lively 9) minutes of good humor. two more stayings and a discoveryment city half is missing in milion or so.

Now, Quincy, employed by the Los Angeles moreber's office, is no mere body inspector. He can de-tect murder most foul in most improvent-looking subdural bematima et myocardial infaraction.

Bill Gillooly came close to traveling the long-sought but non-existent Northwest Passage this

summer.

He left Long Beach Friday in his trusty 22-foot motorboat, after traversing all but 200 miles of the United States.

Gillooly, a 30-year-old resident of Orient (Long Island), N.Y., roared into San Pedro Bay Thursday at 3 p.m., and sighted for the Queen Mary.

He'd been told to use the ancient liner's stacks as a landmark to guide him to the Golden Avenue boat ramp, where his local bosts, the Steve Mulbollands of Seal

Beach, waited to greet him. Gilbooly, who with his brother owns a Long Island construction company, set out on his cross-country motor boat trip July 15.

In his uncovered outboard he carried only cushions, a sleeping bag, changes of clothing and a canvas tarp to rig across the bow as a tent at night.

HE CARRIED no food, he said, because the aim of his trip was more to see the country than to go boating. During the trip he always had to go into town, wherever town was, for dinner.

"I wanted to see the country and see it on my own terms," he said. For years, since seeing such transcontinental television programs as "Route 66" and "Here Comes Bronson," the cross-country journey has "been in the back of my mind."

The idea crystallized about May 15, as his 30th birthday approached.

That birth anniversary "does decided I probably was going to spend the rest of my life where I was . . . I always feit I wanted to see the states, and my particular vehicle was a boat."

With this aim to guide him. Gillooly set out west along Long

Thence he headed along the Illinois River to the Mississippi, on to the Missouri River at St. Louis, and into South Dakota and Montana, where a 200-mile truck portage to Lewiston, Idaho, was required.

FROM THERE he headed down the Snake River to the Columbia, out into the Pacific, and south to Long Beach.

The going got "real rough" on the Great Lakes and the California coastline, he said. His roughest going was on Lake

Erie, where the water was so shallow, in places only 70 to 100 feet deep, that the waves came "very close together." It was "very rough," and "very rough on the boat."

In that part of the voyage Gillooly said he made only five miles a day. "I was just physically ex-hausted."

On the passage across the west end of the lake he was bothered not so much by heavy water as by heavy traffic. "There's too much heavy beat traffic there." he said.

Other more difficult parts of the route were along the Pacific Coast. The most dangerous part of the journey, he said, was crossing

Though this is not an uncommon occurrence, Gillooly's particular passage over the bar was "probably no worse than coming into San Pedro Bay."

After he reached San Fran-

cisco, however, he read of the death of a charter boat captain and eight passengers. The lost captain, said, was one who gave him advice on how to cross the bar. Farther south, in the vicinity of

Point Arena, Gillooly ran into fog and rough weather. "I didn't run into another boat for two hours,"

His 22-foot, open-console fishing boat and 200-horsepower outboard served him so well throughout the sojourn, Gillooly said, that he's counting on them to take him home after he reaches San Diego.

From there he plans to have the boat trucked to Brownsville, Tex. for the return trip.

Court to rule on Cal., L.B. tidelands oil revenue dispute

By CHARLES SUTTON Staff Writer

The state attorney general's office has asked Los Angeles Su-perior Court to settle a \$4 million dispute between the State Lands Commission and the City of Long Beach over money earned from tideland oil revenues.

The dispute centers around the city's practice of placing the revenues from the sale of tidelands oil in an account that accumulates interest during a 30-day accounting

For the past 20 years, the city has kept the interest, forwarding the state its share of the revenues at the end of every month.

The state now contends that the

city's practice was improper, and that it should have credited the accumulated interest to the state's share of the tideland split.

The city has divided its tideland revenues with the state since 1956 and currently receives \$9 million a year as its share. The state's share is running around \$85 million a

According to Deputy Atty. Gen. Alan V. Hager, the monthly pay-

ment schedule is necessary for accounting purposes. It also enables the city to make its deductions for administrative costs

The state claims, however, that the city — by keeping the interest every month — is getting \$400,000 a year more than it is entitled to It says the interest should be considered oil revenue because, as Hager put it, "interest on principal be-comes part of the principal."

But the city argues that the interest is not oil revenue and therefore shouldn't be applied to the state's share

Beyond that, says Deputy City Atty. Einar Petersen, the city is required by the City Charter to keep the interest

The charter is very specific, he says. It declares that "interest, earnings, income or profit from the investment of money deposited to the credit of the tideland oil revenue fund . . . shall be deposited in the city treasury to the credit of (the city's tideland operating) lund."

L.B. renewal unit gets new director

By MARY ELLIS CARLTON Urban Affairs Editor

Ronald P. Ramsey, who has broad experience in the fields of redevelopment, city planning and building inspection, has been named executive director of the Long Beach Redevelopment Agen-

cy.
Screened from a field of 69 candidates, he was the unanimous choice of the agency's live-member board which met in open session Friday afternoon to name a new

director.

Presently executive director of the Alhambra Redevelopment Agency, Ramsey was told of his appointment Friday evening and agreed to start his Long Beach duties on Nov. 1 at a salary of

Prior to assuming the Alhambra post in 1970, the new appointee served for two years as planning director for the City of South El Monte and for two years prior to that was assistant planning director in Alhambra.

RAMSEY ALSO served as chief building official for the County of Los Angeles from 1954-1966 and, in earlier years, worked with con-struction companies both as an accountant and as a land develop-

A specialist in urban planning, Ramsey has a master's degree in public administration from the University of Southern California, a University of Souriern Cantornia, a bachelor's degree in business administration from UCIA and a two-year degree in architecture from Glendale College.

He also attended a graduate seminar in urban design and historical preservation at Cornell University, New York, on a scholarship grant from the Graham Founda-

of the city's Department of Com-munity Development will supervise Ramsey, endorsed the selection.

"I feel Mr. Ramsey will bring to the City of Long Beach valuable experience in redevelopment and will add immeasurably to our ca-pacity in dealing with the overall redevelopment problems and epportunities of the community."

Alhambra's 385 acre industrial redevelopment project, it was noted, is comparable in area and intent to Long Beach's Westside project, stymied for more than a year by litigation.

The Alhambra project, started in 1969 and now 70 to 80 per cent complete, is regarded by some urban planners as one of the most successful projects in the southwest. Hankla pointed out.

"We want the patrol officers to

get to know the people on their beat on a one-to-one basis as much as possible," explained Brizzolara. The police at the meetings will answer qualities and tell citizens how they can help police combat

The program was first outlined to the city Human Relations Commission in June by Covarubias. The commission recommended

that city facilities such as the neighborhood centers be made available for meetings with police officers.

Brizzolara sald the program would be handicapped initially by the extreme shortage of units."

If the department is expanded, the neighborhood patrol officers could broaden their activities to include helping citizens burglar-proof their homes with inspections, start neighborhood watch programs and generally get more involved in their beat areas.

Decline in revenue spurs marina study

Unless something is done to raise the city revenue, there is going to be a showdown over the decreasing availability of tidelands oil money and increasing cost of maintenance of existing recreation facilities, Councilman Wes Carroll Jr. warned the Lions Club Friday.

It's because of this lack of cash generation that I've proposed (to the City Council) a feasibility study of a downtown marina," Car-roll said, acknowledging the finan-cial success of the Long Beach

shoreline to Grissom Island.

He said that Long Beach will run out of tideland oil funds in 1981, adding that a marina would be a sound financial business in which the city should invest.

Carroll predicted that unless an alternate source of revenue is found, once the tidelands oil money has dried up, the city would not be able to maintain its present recreation facilities and extensive services to the elderly.

Included in the nonprofit-making recreation facilities currently financed by tidelands oil money are Belmont Plaza Pool, the city life-guards, operation and maintenance of beaches, Marine Stadium and Belmont Pier.

According to Carroll, the pro-posed 1,750-slip marina would be owned and operated by the city and would feature a fishing platform, bicycle paths and a shoreline promenade "reminiscent of the old Rainbow Pier" which was drained and filled in the early 1960s.

CARROLL, who represents Long Beach's Eighth District, noted that the marina would annu-ally return \$500,006 to the tidelands "The first thing the marina is

going to do is bring desperately needed bucks to downtown Long Beach," Carroll said. "People like to live near a marina. I think a facility of this sort would make the downtown mall a reality. The next thing we need is a hotel in the downtown area.

Carroll, who is the chief council advocate of the marine, said the

Carroll went on to blast the Independent, Press-Telegram's coverage of city news, adding that the only "right part of the newspaper was found on the editorial pages."

Touching briefly on the subject of citywide elections versus district elections, Carroll said that "district elections would foster a ward system in the city.

More Born Again

Religion Editor:

What must I do to be saved! to be Born Again! A person must realize that he is a sinner; for the Bible says "All have sinned and come short of the Glory of God, and There is none righteous, no, not one.

A person can be morally good, self-righteous, educated, even religious, and still not be saved. He must come to Christ and confesss that he is a sinner and ask Jesus to come into his heart and life just as he is.

Jesus said "He that cometh to me I will in no wise cast out." Jesus takes care of the rest. He makes of us a new creation, "Old things are passed away, behold all things are become new. A person must repent of his sins and decide to obey and follow Christ.

There are only two classes of people living on earth, the saved and the unsaved, the Born Again and the not-born again. There is no neutral ground. And there are only two places to spend eternity: Heaven and Hell.

Hell is not a very popuiar subject in the pulpits of our churches today; yet it is, nevertheless, a very real and literal place, just as Heaven is. The spirit and soul of a person lives forever in eternity, one place or the other, even after the physical body

There is no excuse for anyone to be lost once they have heard the simple truth of the Gospel of Christ and how He loved them and died for them. For by Grace are ye saved through Faith, and that not of yourself, it is the Gift of God."

Gayle Smith Shekainah Fellowship

I was born again by water and the Spirit 20 years ago at the age of two months. That was the day of my Baptism, the day God adopted me as His own, the day I became a member of the Christian Church. This was truly a miracle of God, as much a miracle as my first birth. Symbolically washed with water and really washed from sin by the Holy Spirit, I then was accepted by Christ as one of His children, chosen for the fellowship of beaven. This was not an act of man myself, my parents, the minister, or anyone else it was purely an act of God; that is why He can work as well with an infant as with an adult.

Do I remember my being born again? No. Was I active in it? No. It was similar to my physical birth, but just because I was not active does not make it any less valid. My parents made a contract with God — they would teach me; He would come to me as the Holy Spirit. God never breaks contracts, and by His Grace my parents kept theirs. When I was old enough I was given the priviledge to confirm this contract. In the Rite of Confirmation I did not become a

Rip Van Church?

I recently celebrated my 75th birthday. For the past 65 years I have been interested in Jesus Christ and His great but not fully understood sacrifice. I have attended many churches over the years,

both here and in Europe.

I am sure that if ten people each from all of the Christian denominations slept for the last 65 years and were awakened today and told to attend the same denomination as before, they would find . . . that none of the denominations believe or teach the same things they did 65

The letter of Bernard B. Ringer of Sept. 5 indicates he has found the same thing to be true. Although he is talking of only one church, he finds that even from community to community the same denomination is not the same.

About 35 years ago I recall reading in The Press-Telegram a statement by the leader of the Episcopal Church. He said, "The tenets of our church are too old; in fact, they are 265 years too old."

Truth does not change with time, so all these changes raise a big ques-tion: Are the Christian churches getting away from the truth, or are they just getting around to it? A man named John Loo-

mis quoted II Timothy and said we are living in that day foreseen by Paul, that it is a waste of time to listen to tripe.

Are we really living in a time when fables are being preached instead of truth? Could we endure sound doctrine if we heard

years ago.

In your Sept. 25 issue you infer that you deplore Jimmy Carter's having been interviewed by Playboy. However, you devote almost 10 column inches to a discussion of sex, religion and politics, but devote less than 3 inches to a mere listing of problems that Carter and Ford should be facing and talking about.

If you are seriously interested in the views of concerned religious persons. I urge that you subscribe to and read the Washington and California Newsletters of the Friends Committee on Legislation.

The August-September supplement of the California Newsletter presents 8 pages of comparisons be-

tween Carter and Ford. These comparisons include biographies and a list of appointments made by each candidate while in administrative office, and more important, an as-sessment of each candidate's position on important issues such as: foreign policy and military spending, arms control, international development. amnesty, jobs and inflation, welfare reform, civil rights, equal educational opportunity, energy and environment, agriculture, tax reform, women's rights, health, handguns, criminal justice

A reading of the above mentioned 8 pages will provide a broad understanding of Carter's extensive thinking and writing on truly important politi-cal isssues that are of moral concern. I believe that many of your readers are concerned about the truly important political issues and that they deplore the tendency of the mass media to emphasize sensational subjects such as sex rather than the solid issues merely listed by you.

Religion Editor:

I am a devoted reader of your weekly church pages and I never miss one of your editorials or the articles written by Norman Vincent Peale and also all the "Letters to the Editor.

One of these articles so impressed me that I cut the article out and mailed it to all members of Congress from California; this, of course, includes our two Senators.

In addition, I am sending a copy to President Ford and Jimmy Carter. I have given a copy also to our minister, who will comment on same from the pulpit next Sunday.

I am making an effort this week to get my hands on a copy of the "Armed Forces Hymnal" which contains number 268. If this item is correct it should bring down a multitude of protest from Christians all over America.

Keep up the good work for the most enjoyable church page I have ever read.

WHOSE SIDE?

Religion Editor:

Your article of Sept. 25 made me wonder whose side you're on; religion being the study and love of God. Do you "privately and seriously" think a loving God would be happy about the 1 million abortions last year?

You say, "Sex and religion are private matters." (See enclosed article about politically enforced sterilization in India). How private is that? even to the arrest of those who do not comply.

Religion Editor:

When the chief priests and scribes asked: "Is it lawful for us to give tribute unto Caesar or no?" Jesus said in speaking of "Render Caesar's penny: unto Caesar the things which be Caesar's and unto God the things which be God's." It is my belief this was meant to include the use of any emblem or token of honor.

I love our beautiful Stars and Stripes and remember as a child the thrill I felt upon seeing the treelined streets of our neighboring town criss-crissed with red, white and blue bunting and our flag flying gloriously from every lamp post, doorway and post for Decoration Day. However, in reading

about the great architecture of the churches in Long Beach, I wonder if the sanctuary of each displays our country's Flag on one side with the church banner on the opposite side.
I have entered many

churches throughout my 72 years and often re-ceived a jolt or at least a feeling of annoyance when during a moment of reverie or engrosssment in the music or sermon, these flags thrust themselves upon my consciousness. I pay tribute to our American Flag in its place in community and patriotic events, but it is distracting to me to have it usurp attention while I am worshipping in God's house.

Becaused I have not had the meaning of the church banner institled in me, it has received little favor from me. I am sure there are many in the congregations of our churches who give it no more than a passing glance and are not even aware of its symbols. I have heard no ser-

mons regarding the Chris-

tian Flag to Inspire a regard for it such as most people hold for their country's Flag. By rights, one's respect for it should be even greater than for

any other flag or symbol. The church Flag should reign alone and if it is displayed, why not have as a part of the regular worship service the formality of giving our pledge to it in open cere-mony? It is a beautiful pledge and we might gain deep respect for it as we say together:

I pledge allegiance to the Christian Flag and to the Saviour for whose kingdom it stands, one brotherhood uniting all mankind in service and in

Continuing, the learn, soft-spoken Dodson talked of S. Paul's distinction between those who merely go through the motivos of religion and those who feel impelled by faith to result with Him everyday. "A MAN CAN come down the church aisle, take the paster's hand, become baptined and a member of the shurch." Dodson said. "Then be might ait back and

Plains Bapcists have first-hand knowledge of all the form as reporters and victors ask them to define the term "born again."

"It's hard to explain." says Hugh Carter, the candidate's coosin who is Cleark of the church. "The church has just always been the original part of my life. When a person realizes that Jesus Christ died for our sins and is willing to say it publicly, this is the relatib."

The Rev. Bruce Edwards, who took over the pulpit almost two years ago, says the situation is "something every preaches wants." When he first arrived, he says. the people needed sermons that would help them grow and give them a better foundation for the faith they already had."

The church of Jimmy Carter's upbringing has evolved sumewhat over the years. For one thing, the emphasis on predestination and starn repentance has largely gived way to a more positive stress on salvation as a joyful answer that can be treely chosen. For another, strict Biblical fundamentalism has undergoes a moderating influence to the point where few would insist that scripture carnet err.

Since Jimmy Carter was nominated at the Demoestatic Convention in July, the church has grown accustomed to overflow congregations — swelled by the Secret Service and members of the press, among others - and its members have patiently responded to such amoyances as the pillering of song books by souvenir hunters. The church's annals show that blacks and whites did worship together briefly at Plains Baptist in the last century, as Jimmy Carter says in his autobiography, "Why Not the Best!" and it was a breakthrough. But a notation from 1966 indicates that whites considered the arrangement temporary, urging blacks to learn how to lead a church. By 1970, blacks had their own church.

BUT DESPITE CARTER'S successful effort several years ago to persuade the church to overturn its deci-sion to her blacks, the victory has had little practical affect. The church remains all white, and there is virtually no contact by the church with the black community. Some fitters went through the congregation a few weeks ago when four black women, visitors to Pining, were nervously escorted to a pew.

According to the church's "Articles of Faith," Plains Baptist teners include belief in the Trinity, original sin, justification by faith, resurrection and Christ's final jurisment of the world. It also holds that there is eternal punishment for wrongdoers and eternal joy for the righteous. The other leading belief is the baptism of adults by total immersion.

The stary concerned a man who "rose in life" to be prime minister. The man's rivals were jealous and sought to find fault with him so they could trip him up." They could find nothing defective in his character but finally discovered that the man went into a closet for "M minutes a week."

They complained to the king, who investigated. The prime minister explained that be went into the closet in order to put on the shipherd's clothing be had once wurn. "For be was afraid be might furger," Dodson con-

. Religion Editor:

I have read with interest the many articles appearing in your column and I cannot agree with any of them because they all cooose each other.

in more than 30 years I have studied the various religious of the world. I have found that each basically agrees with the other. But! When the subject is twisted and con-

torted by the whims of man, they cannot agree. The Western World shoyaid a se the Bibler as its base and let the Far, East use the Bhagarata and its literature . . . But put not man's interpretation on the truth. Let the Bible emlain itself and do what it tells us to

A Study of the Spiritual Gifts MARY FOGLEMAN, SPEAKING MAY I HAVE UNITED METHODIST A MOMENT OF For two or three Sundays, I have been preaching a series of measages on "The Man Who Cartle To Jesus By Night"; his name was Nicodemus, and there are several inversiting things about him, not me least of which is that he was willing to learn.

He would not permit prejudice to dose the doors of his mind to the moth. Most of his friends concerned Jesus of Nazareth, without neatly knowing Him. They had already decided they would not accept His claim and so, for the moment, they simply turned their backs and wafead away.

It is an easy thing to close our minds to what we do not want to see, to close our ears against words we do not want to see. To close our ears against words we do not want to see, to close our ears against words we do not want to see, to close our ears against words we do not want to see, to close our ears against words we do not want to see, to close our ears against words we do not want to see. The practice is quite as dangerous at it is easy, for the person who refuses to believe, to see, to hear, loses his capacity to learn, to know.

This next Lord's day, both morning and evening, we will further study the story of Nicodemus, learning from the very Scriptures why he decided, at great personal cost, to become a disciple of Jesus. Sunday evening, too, we will see some thrilling protures in a side presentation of the land of Israel.

Orange County Deputy Dist. Atty. David O. Carter took the witness stand Friday in Santa Ana Municipal Court to defend his holding a "private" lineup for prosecution wit-ness Curt Eddy in preparing the case against two defendants in the kidnapmurder of Johann Seig-

William Paul Gullett and Ronald Lewis Ewing are accused of kidnaping Mrs. Seigman from her Rossmoor bome Aug. 25 and murdering her when the plan to get an esti-mated \$57,000 in ransom from her Long Beach supermarket manager busband failed.

Carter, who has presented the state's case against the two Bellflower men during the week-long preliminary hearing, testified for 40 minutes and defended introducing Eddy to the Seigman family at an informal meeting in the district attorney's office Monday morning.

After Carter's testimony and extensive cross-examining, Judge Robert E. Law denied a motion by defense attorneys Marvin Cooper, representing Gullett, and Michael Becher, representing Ewing, to dismiss the charges on the grounds that the "lineup" for Eddy was "suggestive" of his innocence.

Cooper and Beecher had argued that Eddy was shown to the Seigman family in different circumstances than the two defendants were, in that Gullett and Ewing were dresssed in prison clothing while Eddy was in civilian clothes and that Eddy was alone in the district attorney's comerence room while the defendants were in a group of men at the county jail.

They further argued that the entire atmosphere of the two lineups varied enough to put the stamp of

guilt on their clients and innocence on Eddy.

Judge Law also denied

defense motion to strike the testimony of Mrs. Seigman's husband, Long Beach supermarket manager John Seigman, and ber three children, Cathy, 19, John Jr. 17, and Paul, 11, because none of them could positively identify either Gullett or Ewing as the men who kidnaped

Although the judge had previously indicated his desire to finish the hearing by Friday afternoon, he finally ordered it resumed at 10 a.m. Monday.

At that time he will bear defense motions to strike the "special circum-stances" clause from the indictment, which allows the death penalty to be imposed under a new California law, and also will decide whether bail will be set if the men are beld to answer in Superior Court.

Gullett and Ewing are charged with four counts

of kidnaping and one count of murder, with Gullett facing an additional charge of being a felon using a firearm in comlatest test

night of the kidnaping. Earlier in the hearing, the girlfriend, Dora Parker, testified that Ewing was at the Howard Johnson restaurant-bar in the Cerritos Mall, where she works as a cocktail waitress, from a little after 9 p.m. until midnight.

Now, Dignity In Death

A jubilant 77-year-old Rose Nicholas headed for a copying machine at Leisure World in Seal Beach Friday to crank out

thousands of "living wills" that may some-day allow a doctor to let her and others die. Now there can be dignity in death not to lay there with tubes and all sorts of apparatus trying to keep life when there's absolutely nothing," she said.

Mrs. Nicholas said she and her hus-

hard, Ben, had worked for more than two years for passage of the nation's first "natural death act." signed by Gov. Brown minutes before the Thursday midnight

Starting next Jan. 1, the law will allow a doctor to disconnect life-support equip-ment from a dying patient who has author-ized it in advance, without fear of being sued or prosecuted.

The living will must be renewed every five years to remain valid. It can be acted on only when two doctors certify the patient is hopelessly ill and death is imminent, no matter what treatment is used.

Brown said Friday in Sacramento that he signed the bill to end the practice of "making humans slaves to machines."

The former Jesuit seminarian told re-porters in his office: "There is no moral principle that requires extraordinary means or artificial devices to prolong life

Mrs. Nicholas said 2,000 elderly residents of Leisure World had signed a petition to the Legislature urging passage of the bill, and probably at least that many would want to sign a living will.

Others who have said they would sign

the document include the president-elect of the California Medical Association, Dr. Kash Rose, and the author of the bill, Assemblyman Barry Keene, D-Eureka.

For herself, Mrs. Nicholas viewed the

law as a chance for freedom from medical treatment that might otherwise be forced

on ner.

"If we're terminal and we have to go, for God's sake let us go," she said.

Her husband said "we must have the right of saying here's what I want to do with my body and my soul . . . if there's no reasonable chance of survival."

The delim by companying to the management

The claim by opponents to the measure that it forces doctors to follow rigidly de-fined steps in caring for the terminally ill is very lovely-sounding rhetoric, but it's ridiculous." he said.

Storm rips across Baja; parts of California flooded

LA PAZ, Mexico (AP) - Hurricane Liza cut a deadly swath across the Baja California peninsula Friday. Officials put the number of persons killed at 630 and said it could go as high as 1,000.

Many of the victims lived in a La Paz shantytown swept away by a wall of water from behind a dam broken by the storm, which carried winds of up to 100 miles an hour.

A spokesman for the port captain's office in La Paz - a desert-area resort near the southern tip of the peninsula that juts down from California — said 630 - said 630 dead was the latest official count. Rogelio Felix, a spokesman for the governor's office, said the toll could reach 1,000.

THE STORM continued onto the Mexican mainland and started losing strength Friday evening, a weather bu-reau spokesman reported.

The 30-foot-high dam on the Cajoncito River just outside La Paz gave way early Friday morning. The wall of mud and water swept through an area of make-shift shelters housing 10,000 people, carrying some shacks as far as six miles, Felix said.

Officials estimated that 14,000 persons were injured and at least 40,000 were homeless - half of those in La Paz alone.

Felix said the bodies of many people including children, were found buried in the mud and sand after the floodwaters drained off.

The hurricane also brought wide-spread flooding Friday to areas of the Southwest still reeling from two other disastrous storms

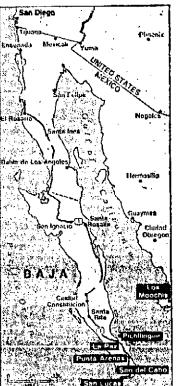

Liza brought torrential rains and flooding to parts of Arizona, California and Nevada

National Weather Service officials said late Friday that there was a danger of flooding in the Colorado River basin, much of Arizona, the eastern deserts of Southern California and eastern and southern Nevada. Officials in Arizona, Nevada and California reported some flooding and at least 1,000 homes evacuated by Friday afternoon.

THE STORM dumped more than an inch of rain on the Santa Berbara airport in less than 35 minutes. Rain came down hard at the airport that a United Airlines jetliner coming in for a landing turned around and flew back to Los An-

Reprimand by Ford for remark on blacks Butz slur stirs up furor

WASHINGTON (AP) -President Ford summoned Agriculture Secretary Office on Friday and gave him "a severe reprimand" for making remarks about blacks that Ford found "highly offensive," White House Press Secretary Ron Nessen said.

Within hours after the incident became known,

several senators, including some Republicans, called for Butz' dismissal.

The reprimand was triggered by an account in Rolling Stone magazine by John Dean, convicted Watergate figure, in which Dean quoted an unnamed Cabinet member as using strong language when asked why blacks did not vote for Republicans in

Nessen did not say how Ford learned that Butz was the unnamed Cabinet officer, but it was known

that the White House was aware that the forthcoming issue of New Times magazine identified Butz as the one who made the remark.

Nessen said Butz expressed regret at making the remark, and an Agri-culture Department spokesman said Butz is-sued an apology "for the (Turn to Back Pg., Col. 1)

Probe clears Ford

WASHINGTON (AP) -The special Watergate prosecutor has concluded there is no basis for crimi-nal charges against President Ford or anyone else in allegations of campaign finance improprieties Ford's old congressional district, two sources familtar with the probe said Friday night.

Watergate prosecutor Chares Ruff has concluded his investigation and plans to issue a public report clearing Ford early next

week, according to a Justice Department source.

A source within the FBI said the FBI has com-pleted its investigation for Ruff and also found that there is no basis for prose-cuting anyone. The FBI source said the probe found that the original allegation from an FBI in-formant lacked substance.

"I don't think anybody missed anything" in the investigation, he said. Asked why an informfull investigation, the FBI source said, "If you don't take a look at it in today's climate, that's a cover-

concentrate on remedying existing and potential pollution problems in the area rather than pretend they don't exist.

Mauilin, just returned from Washington, D.C., where he met with Sens. Henry Jackson of Washington and Adlai Steven-son of Illinois, confirmed that he had invited the senators to conduct additional bearings in California into the proposed dis-position of Alaskan oil. The first joint committee hearing on the subject was beld in Washington, D.C., last week.

Maullin said he empha-

sized to the senators his belief that all of the alternatives proposed for shipping Alaskan oil to the Midwest should be examined at the same time, instead of piecemeal. He insisted that he and other

California officials, including Air Resources Board Chairman Tom Quinn, have not toreclosed any option, including the op-tion of moving the oil through Long Beach." The Sohio plan calls for

oil to be brought from Alaska to Long Beach by tanker, then to be shipped by pipeline to Midland, Texas, where it would be refined and sent along to midwestern states. A substantial portion of the Alaskan oil would stay in California and be refined in the Long Beach area. Maullin cited a study

which showed that the Sobio proposal would aggravate the air pollution problem in the Los Angeles basin.

"The people in Long Beach may not like that study," he said, "but they can't make the findings just go away. Those findings, however, can be re-futed if the evidence is there, and that is where the emphasis should be."

Quinn, he said, was trying to get the Coast Guard and other agencies involved to find solutions to the problems.

Maullin said Jackson and Stevenson left the question of West Coast hearings open, but he said both were sympathetic to the suggestion that the bearings include all aspects of the energy distri-bution question prompted by the scheduled movement of Alaskan oil.

"If the Sohio project is ever to be effectuated," he said, "the environmental concerns must be addressed.

'MULLIGAN'S PIRATES' THEFT NAVY PROBES

NORFOLK, Va. (AP) - The Navy is investigating a \$70,000 theft on the air-craft carrier Forrestal that closely resembles a shipboard robbery depicted in a povel published a decade ago.

Investigators said Priday they were "exploring all the avenues with every man available." One said the novel, "Mulligan's Pirates," a fictional account of a holdup on a Navy carrier, was mentioned as possibly inspiring nonfiction

In the book, civilians dressed as sail

ors boarded the ship as though returning from liberty. They were caught only be-cause the ship's commander sounded eneral quarters to test the crew's combat readiness.

In Thursday morning's robbery, the culprits escaped. The money was to have been used for the cashing of Thursday's payroll checks.

We're hoping the only difference be tween the end of the book and the end of this robbery is that we catch them ashore," an investigator said.

Navy spokesmen said the robbers tied and gagged Disbursing Clerk 2C. Eleazar Patacsil, 29, of The Philippines, then used an acetylene torch to enter a sale containing the money. The torch had been stolen from a ship locker.

Patacsil managed to free himself two hours later and alerted ship authorities.

At the time of the robbery, the Forrestal had left her pier at Norfolk Naval Station and was anchored a balf mile away, preparing to enter Norfolk Naval Shipyard in Portsmouth for major repaurs.

Navy spokesmen provided few details, but other sources said Patacsil was unarmed and was the only person working near the large safe.

One source said liberty boats were taking crewmen from the ship to the shore at the time of the robbery and dozens of civilian shipyard employes also were aboard, preparing the carrier for

repair work.

Christina Onassis seeking divorce

Christina Onassis Andreadis, daughter and principal beir of the late shipping magnate Aristotle Onassis, is seeking a divorce from her second bus-band, Alexander, Orthodox Church sources said Friday in Albens.

The sources explained that the matter came to the attention of the Church because divorce procedure in Greece requires the Church to try to reconcile the comple before the case is referred to a court of iaw. There was no other confirmation of the report.

The sources declined to discher the reasons Christias, 25, gave in seeking the divorce. She married Andreadis, son of a westity Greek industri-

Wins stay

A British divorcee in East Alton, III., who took out an ad for a husband to avoid deportation, got an offer she can't refuse. It's from the office of Rep. Melvin Price, D-El.

Price's office said Susan Spurrier can stay in this country at least six meaths past Dec. 31, the date she was scheduled to be deported.

The congressman's of-fice said Price, in addi-tion, would introduce specisl legislation to make Mrs. Spurrier a perma-pent resident.

"It's a whole new ball game now," the 25-year-old woman said Thursday. But the mother of two said ber ad summoned 200 letters of proposal and she intends to go ahead with

Film editing

Can Action Line tell me how someone can get a job in the film editing department of a movie studio? J.D., Lang Beach.

As with virtually all the theatrical professions, it's very difficult to break into the film business. To get most jobs in that field, a person must be a union member, and to become a union member, a person must have worked as a film editor for a studio that has a labor contract with the International Alliance of Theatri-cal and Stage Employes (IATSE) Local 776, the film cal and Stage Employes (IATSE) Local 776, the film editors unit. Such studios won't hire a non-union film editor unless all the union members already have jobs and many of them are unemployed. Qualified nonunion job applicants can apply to have their name added to a movie and television industry work referral list by appearing in person at the Contract Services Administration Trust Fund. 8480 Beverly Blyd., Room 22, Hollywood. Generally, if a person works 30 days for one studio or 90 days for more than one studio within a year, he may apply for union membership. A union spokeshe may apply for union membership. A union spokes-man said film editors often have a college background in film editing and cinema courses, but many learn the trade through an informal apprenticeship arrangement. "most editors started out by getting lessor jobs in a studio's film editing department carrying cans of film and doing odd jobs and while learning the techniques from the pros." be added.

Policy

My sister was found dead in her home in South Gate Aug. 12. We called the parametries and they and the police told us she had to be taken to a hospital to be

police taid as she had to be taken to a hospital to be pronounced dead. The police said the law requires this. Two days later, Action Line printed an item saying that in Long Beach the paramedics can pronounce death if the person is obviously dead and that it no longer is necessary to take the body to a hospital for this pronouncement. Who is right? Mrs. F.F., Norwalk.

Because of several conflicting guidelines recently on who is authorized to officially pronounce death, virtually all emergency personnel who are not doctors currently are avoiding potential problems by insisting death be pronounced by an MD. The present practice is contrary to information supplied Action Line by a coroner's aide and a local mortician. The current vacuum in regulations pertaining to this subject is expected to be filled by pending legislation spelling out who, other than doctors, can pronounce death and under what circumstances, Assistant Los Angeles County Coroner Don Drynan told Action Line. Drynan told Action Line.

Physical therapist

Where can I get training to become a physical therapist? R.M.V., Lakewood.

In California, physical therapists must complete a In California, physical therapists must comprete a lour or six year science-based professional program of study at an approved school and then pass a license examination by the state. The training is offered in this area at Long Beach State University, Northridge State University, USC and Childrens Hospital School of Physical Therapy in Los Angeles. Clarence Hultgren, executive director of the California chapter of the American Physical Therapy Association in Sacramento, suggested that you contact one of the schools and ask what its prerequisites are. Hultgren said there is competition for entrance to the programs with about five to 20 appli-cants per opening. There are also programs of study for physical therapy assistants at San Diego City College and at De Ania College at Cupertino. For further information on a career in physical therapy, write to the American Physical Therapy Association, 1156 15th St. N.W., Washington, D.C., 20005.

Judge to inspect jail as Harrises complain

OAKLAND (AP) -After hearing complaints from William and Emily Harris about "intolerable" jail conditions, a judge said Friday he would inspect the facilities himself within 24 hours...

The Symbionese Liberation Army couple appeared separately before Alameda County Superior Court Judge Alan Lindsay at a hearing two days after being indicted for the Feb. 4, 1974, kidnaping of

Patricia Hearst. They left open the possibility that they will act as their own attorneys unless they are represented by two lawyers who worked with them during their Los Angeles trial earlier this

year Each asked the judge to intervene with jail authorities to insure the confidentiality of their legal consultations.

Harris said deputies at the county jail in Oakland were inspecting legal correspondence to him without cause.

His wife, who is being held at the city jail here, said restrictions on visiting hours, inadequate fa-cilities for legal conferences and other practices were "intolerable" and hindered preparation of

her defense. Lindsay said "within 24 hours I will make a per-sonal inspection" of the jails where the Harrises are being held before tak-ing any action.

53 WARDS REMOVED FROM 2 YOU

County authorities Friday began removing 53 county wards from two South Central Los Angeles youth placement homes as a result of numerous citations for health standard violations.

Officials said the two Averett Youth Homes were cited for more than 40 sepa-rate violations, including such things as broken faucets and stopped-up toilets

They said while some of the deficiencies were corrected, others were allowed to continue

Rudy Guerin, owner of the homes, acknowledged under questioning by reporters that physical conditions were not up to par. But he stressed that the county had no argument with his rehabilitation

program, which he said had an 85 per cent success rate.

cent success rate.

Giverin told reporters that most of the youths at the facilities were probationers placed there by the courts. He said the youths were mostly responsible for breakages, but his philosophy was "not to punish them but to teach them to take out their anger in other ways."

He also blamed late payments by the county for much of the problem. He said if health officials had given him another eight days be could have corrected the

eight days he could have corrected the deficiencies.

The county pays Guerin \$922 per month per child, He said he had accommodation for 60 youths and a full-time staff of 45

By withdrawing the 53 youths, he said, the county was forcing him to close down his operation.

Guerin two years ago put out a pro-gram outline on Averett Youth Homes stationery. The latterhead listed the group as a non-profit organization and showed a printed list of "advisory board" members, including many notable black welltidage.

Included on the list were Sen. Nate Holden, D-Los Angeles; Los Angeles City Councilman Gil Lindsny, and Daniel Grindell, an aide to Supervisor Kenneth

Grindell said he had never given permisssion for his name to appear on any advisory board, nor had he ever attended

any meetings. Holden, too, expressed surprise that his name appeared on the list.

Holden, however, conceded that he had called the Probation Department to ask if there was any possibility of a

further hearing before the youths were

withdrawn.
But, he told reporters, he himself had

criticized Guerin in the past for poor physical conditions and had told the Probation Department to handle the mat-

ter as they saw lit.

Chief Administrative Officer Harry
Hulford, in a memo to supervisors, said
Guerin had admitted in 1975 receiving 485,000 in overpayments from the county as a result of inaccurate audit information. He said Averett has been making monthly payments to the county to offset

monthly payments to the county to orset the overpayments, but still owed a bal-ance of \$46,000.

Guerin said the problem arose when someone donated a house to his group. He said the value of the house was in-cluded in the assets on which county contributions were based.

If you're ever been bumped from an overbooked airline flight even though you had reservations, take heart. The State Public Utilities Commission is look-

ing into the problem.

The PUC staff recommended in Los Angeles Pridar that new regulations be adopted for airlines that fly enclusively within California so that passen-gers denied bounding would be compensated with a specific payment.

The report said overhooking on intrastate airlines is not as widespread as supposed and can be justified on the basis of "no shows," but said the rules shald be imposed to protect reserved-space Passenters.

The PUC last year received 36 denied-boarding complaints against Parific Southwest Airlines and six against Air California. PSA transported more than six million persons that year and Air California more than a million.

THE STAFF report warned that the regulations soibite footh because it could affect airline revenues and airplane load factors.

It said people who don't show up or who change or cancel their reservations made from five to 25 per cent of all reservations for the two carriers, and both airlines overbook to compensate.

"The problem of overhooting is common to the entire airline industry," said the report. "In fact, reservations overhooting and oversales practices by interstate air carriers are presently being examined by the Civil Aeronautics Board."

Bill extending benefits to more unemployed passed

WASHINGTON (Ar)-Congress passed compromise Tegislation Friday extending unemployment insurance to an estimated 8.6 million additional workers and raising the tax on employers that finances the program. The House approved the measure 272 to 97, and the Senate accepted it by voice vote, sending it to President Ford.

Farm operations that employ 10 or more workers for at least 20 weeks a year or pay \$20,000 a quarter in wages for their services would be brought into the system. Employers of domestics would be covered if they paid \$1,000 or more in wages during a calendar

The bill would increase the federal tax on employers by two-tenths of one per cent and raise the wage base on which it is applied from the present \$4,200 maximum to \$6,000.

Corrected "Urum" is the poll a plus for Carter

Enlarkt News Service

WASHINGTON-Flawed Gallup polls have overstated President Fords's standing in his race with Jimmy Carter, Gallup officials acknowledged Friday.

The first two polls pub-

lished after the Republi-can convention showed Ford three percentage points closer to Carter then he really was.

The third Gallup post-

convention poll, published Thursday, may repeat the same error, according to Paul K. Perry, president of the Gallup organization. If so, the gap between

Ford and Jimmy Carter would be 11 points instead of the eight points re-ported in Friday news-

FORD campaign strategists had set as their private goal a closing of the gap to less than 10 points by Oct. 1. It now appears that their celebration at reaching that milestone may have been

A sharply different view came from Dr. Philip Dreisbach of Concerned Physicians and Attorneys Against Euthanasia, one of several "pro-life" groups that fought the bill.

Dreisbach said his group would be "trying to educate people so they don't sign a living will," and urging people to warn their relatives in mursing homes and public health facilities against signing such documents.

He said the law "locks doctors into rigid standardized steps in the care of seriously ill patients and eliminates flexible individual medical care of the dying.

Tunney has debate with tam-o'-shanter

Sen. John Tunney debated a tam-o'shanter on a hatrack Friday while his Republican opponent, Dr. S.I. Hayakawa, ridiculed Tunney as "Sen. Flip-Flop" in a separate appearance.

Tunney appeared before the San Francisco Press Club, which had invited both major U.S. Senate candidates, and he repeatedly hammered away at Hayakawa's refusal of numerous invita-

tions for joint appearances.

The Democrat sharply attacked the 70-year-old semanticist, accusing Hayakawa of "insensitive and insulting statements" about black, Japanese, Mexican-American and Jewish minorities.

Tunney pulled out the brightly plored tam-o shanter, which has been Hayakawa's symbol since he wore one while quelling student demonstrations at San Francisco State University eight years ago, and stuck it on a hatrack which aides had placed behind the speaker's restrum at the Press Club dinner.

Tuncey said Hayakawa's comments about racial minorities were "blatantly elitist, divisive and disruptive in a country where there has been too much divi-

Foreman-Norton for title

The World Boxing Association said Friday that it would recognize the winner of a Ken Norton-George Foreman fight as world beavyweight champion, if and when it received official notification that Muhammad Ali bad retired.

Rodrigo Sanchez, vice president of the WBA Rating Committee, said Norton and Foreman should fight within 90 days of the date that the title is declared vacant.

"George Foreman has enough credits to be declared the cham-pion." Sanchez said, "but when the title becomes vacant, the two top contenders should be called to-gether to fight within 90 days of the time the title is declared vacant. According to chapter eight of the

Norton-Foreman fight would be recognized as world's champion."
Earlier Friday, World Boxing Council president Jose Sulaiman said the WBC would recognize Foreman as the No. I contender and, once he has received confirmation of Ali's retirement, the WBC would vote on who Foreman would fight for the championship.

A spokesman for Herbert Muhammad, Ali's manager, said Ali's retirement would be made official when the champion returned from Turkey, where the an-nouncement originally was made.

Meanwhile, there were claims to the championship made in behalf of both Foreman and Norton.

Promoter Don King said at a news conference at his Rockefeller

Earlier, both Norton and his manager claimed a "people's championship."

Bob Biron, Norton's manager, took advantage of the fuss to immediately lay claim to the title for Norton, who three days earlier lost close decision to Ali which Biron had protested.

"Norton is the world cham-plon," Biron said. "He defeated Ali, The decision was stolen. We feel be (Norton) is the true champion, and everybody else is a chal-lenger. We are not interested in an elimination.

Norton agreed that Foreman's name could not be dismissed. "After the fight I had with Ali, there's nobody around but me and Foreman," Norton said, "I am re-garded as the people's champion

now."

The situation is not unprecedented. In fact, this is the second time Ali has left the title vacant. On the first occasion, when Ali was forced into temporary retirement by his anti-Vietnam war stand, a series of six bouts was needed to name a WBA champion.

bile Ali's retirement announcement was not unexpected, its suddenness and this bizarre setting for the decision created consternation among officials and observers of the sport

Sun and surf made Adkins snub Ohio St.

COLUMBUS, O. - Contrary to popular belief, every Obio male isn't born with a football under one arm and waving an Ohio State pennant with the other.

Ohio State pennant with the other.

There are people like Bryce Adkins.

"I thought about playing for Ohio State, but it was never a dream like it is with a lot of kids," says the UCLA offensive guard. "My family lives only five miles from the campus, but I've never been to a game in Ohio Stadium."

Adkins and his Bruin teammates are 8-point underdogs for their date with the Buckeyes today. A crowd of more than \$7.000

and a national television audience (Channel 7, 10:45 a.m. PDT) will view the rematch of

UCLA's 23-10 Rose Bowl upset. Through buying and trading, Bryce acquired 16 tickets for family and friends, "but I really

don't know who they'll be cheering for." How could Woody Hayes overlook a 6-2, 230

pound lineman like Adkins? "Well, I wasn't quite this big in high school
— more like 5-11 and 175 pounds. Woody didn't
know I existed. I was pretty small."

ADKINS WAS HURT as a sophomore and junior and played in only his senior year at Linden McKinley High in Columbus. The Panthers were 8-2, but Bryce drew little notice. "I started playing tackle football in the sixth grade. In Ohio

it's the only thing to do. "When I graduated I was sick of school and didn't want to go

to college anyway. I wanted to get out of Ohio."

The local Navy recruiter came to the rescue. Bryce signed on the dotted line, accepting a four-year hitch. He went through electronics school and then volunteered for the underwater demo-

The recruiter didn't explain that UDT training was five weeks of physical conditioning before the schooling began in depth A 16-mile run was not unusual.

We started with 150 and after the fifth week there were only 28 of us. That was 'Hell Week,' day and night for a solid week with hardly any sleep at all. After two days you were physically destroyed-and then the mental side got to you.

NEXT CAME A PAIR of six-month tours at Subic Bay in the Philippines with a total of four months in Vietnam.

"Our job was to blow up bunkers and bridges. We lost two guys and had another eight wounded, all from bobby traps." The next stop was Coronado, where Adkins played service ball and started bulking up. From a 185-pounder tramping the

rice paddies, Bryce grew to a 215-pound guard at Golden West JC. By Christmas of 1974 he was a 220-pound JC all-America and high on Woody Hayes' list of prospects.

"Woody made a big thing out of coming home, playing for Ohio State. He told me, 'Next year we'll be national champions and you'll get to come back for the Rose Bowl.'

"He almost had me talked into it, but in the back of my mind I wanted to go to UCLA. I thought about never getting back to California and being stuck in Ohio the rest of my life."

"Could I have played for Woody? I guess I could if I had to; be's military-minded and I've been through that type discipline, guess I could have adjusted. "Back when I was in high school, he was more of a legend. I had to get away to realize what he was and what he stood for.

He'll go down as one of the great coaches of all-time."

A Millikan explosion, 32-15

By DAVE WIELENGA Staff Writer

Millikan High made a revision to the old supersition about breaking wishbones Friday night and it is an amendment that visiting Westminster is

While breaking a wishbone may earn you the wish of your choice, having one broken on you is another matter entirely.

Westminster's defense gave the Ram offensive formation a rugged first-half test but Millikan snapped off 22 points in the opening 7:41 of the

third period to claim a 32-15 victory.

Despite the high score, neither team accumulated an exceptional

amount of yardage. Millikan gathered 247 yards-192 rushing-and Westminster picked up 201 yards, 127 on the ground-and only 69 in the second

All three prongs of the Ram wishbone got into the scoring act. Herman Tautolo and Bob Rickenbach, running backs with dissimilar styles but a shared knack for turning in the big play, led the uprising. The flashy Tautolo broke away for 142 yards and one touchdown on 12 carries while Rickenbach, who spent most of the night pounding away for short

gainers, totalled 57 yards and two TDs on 18 attempts. Fred Moore scored once and piled up 69 yards on only seven carries.

The game did not get off on a positive note for Millikan.

Westminster running back Duane Gerardi, who along with Doug Boswell comprised the heart of the Lion attack, took the opening kickoff 22 yards to the 38. He also took the first handoff and rambled 58 yards to the Ram four. Boswell gained the first of his 75 yards with a two-yard effort and quarterback Mike Sodders pranced in from there at 10:22 for a 7.0 advantage that held throughout the half.

Millikau squandered its only real scoring opportunity in the first half. Passes of 11 yards from Tautolo to Darryl Hall and 44 yards from quarterback Kevin Jenkins propelled the Rams to the Westminster four, but the stubborn Lion defense turned them away. The second half was a different story. Millikan required only six plays

to complete its first successful drive of the night, a 79 yard trek of which Tautolo supplied 43 yards and a scoring run of 15 yards. Meanwhile, the Ram defense, which had kept Millikan in the game during the team's offensive struggles, continued its fine play, denying

Westminster a first down throughout the entire period.

Pive plays into the fourth quarter, Westminster cut Millikan's advantage to 22-15 when Gerardi slammed in from the one and substitute quarterback Ron Crouch dumped a short pass to Boswell for a two-point PAT.

Millikan responded with an 80 yard scoring drive of its own, culminating with Rickenbach's second TD of the night. Further Westminster threats were thwarted by Jim Dunyon's fumble recovery and Phil Mann's Intercep-

Mike June booted a 25-yard field goal to complete the scoring.

Wilson shocks Carson,

By KEN PIVERNETZ Staff Writer

No one has to offer any condolences today to Wilson High's foot-ball team for its tough pre-Moore

League schedule.

The Bruins proved Friday night at Stephens Field that they can

play with the big boys, knocking off L.A. City power Carson, 18-15, in a game in which all the scoring was limited to the first half.

It was the first win in three

weeks for Jon Meyer's team and followed losses to CIF powers West Torrance (No. 5) and Fountain Valley (No. 2). Carson, which was ranked first in a pre-season L.A. City poll, is now 0-2.

Mike Peters threw two touch

down passes and Dale Oden ran 30 yards for another score to spark the Bruins offensively.

WILSON-(Continued from Page B-1)

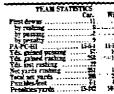

The TDs came in

Wilson scored twice and Carson once in the first seven minutes. Then each school got on the scoreboard again in the final 50 seconds before halfitme.

Peters caught Carson's secondary asleep on the Bruins' first play from scrimmage, combining with Terry Fifer on a 57yard pass play that saw Fifer a good 10 yards be-hind the nearest defender when he caught the ball at the 21.

Oden, who finished with 118 yards on 22 carries, got his TD on Wilson's next possession.

The 180-pound senior tailback cut one way at the 30, then reversed his direction to give the

Bruins a 12-0 lead with 5:41 remaining in the first quarter. Both conversion tries, one a kick, the second a run, failed.

Carson didn't wait long to counter, quarterback Keith Fulbright sprinting 73 yards on the first play following the kickoff. A run by Dexter Winans after two Bruin penalties had put the ball on the one, resulted in a twopoint conversion.

Penalties hurt both teams. Carson had 97 yards in

walkoffs in the first half alone, finishing with 142. Wilson was saddled with 63 yards, the biggest denying fullback Alan Koos a 70-yard TD early in the fourth quarter.
"The officials called

Roos for being in motion which is pretty hard to do when you're a fullback in a three point stance;" said Heyer.

Some hard running by Oden preceded Wilson's third TD, a 23-yard pass from Peters to Greg kin only 48 seconds before halftime. The 78-yard drive saw Oden rip off runs of 12, 14 and 12 yards.

But the equally exciting Fulbright rallied Carson in a hurry. The Colt quarter-back ran 20 yards to his own 45. Two incomplete passes used up 10 seconds. On third and 10 Fulbright threw a quick pass to Frank Rank. The Carson tight end lateraged to Mike Wilson, who raced past the Bruin beach to complete the 55-yard scor-

Commings turns Hawkeyes around

They don't laugh at Iowa now

By LOEL SCHRADER Staff Writer

They used to laugh at Bob Commings. He was a 5-9, 173-pound guard trying to play bigtime college football.

But the giggling died away when he helped lowa win a Big Ten championship in 1956 and a Rose Bowl triumph on New Year's Day of 1957. A year later he was chosen lowa's most valu-

Now they laugh with Commings, who is serious about his job as head coach of the Hawkeyes but witty enough to capture the affection of the state of lowa.

Commings, whose Hawkeyes face USC at the Coliseum tonight at 7:30, laughs at the spring of 1974, his first at lowa City.

"Fremember our first practice. We told the kids there would be a lot of people out there watching them so, if nothing else, I really wanted them to run out onto the field smoking them to run out onto the field smoking

(hustling).
"Well, it was a crisp, sunny March day, the
Astroturf was thawing and steam was rising from it. When we ran out onto the field, I think the kids started believing.

Commings, a disciple of the highly successful Forest Evashevski, will accept nothing less than a 100 per cent effort from his team.

"I want our team to be known as the most honest in the country," he says. "I want the other team to feel they had better button down when they play against us because our kids will

not die.
"I'm just corny enough to believe Grant-land Rice was right. It's not whether you win or

He's not that serious about everything.
For instance, on grooming, the bald-headed Commings says: "How could I possibly be opposed to hair? The length of hair is not a criterion for measuring a young man's integrity. There is a common sense point. We all know what it is."

On crew cuts: "I don't want any shorthaired freaks on my team."

On the Wishbone offense: "The thought of not blocking people is something I find offen-

On playing such perennial powers as Michigan, Penn State, Ohio State and USC: "A lot of young people are very romantic and adventurous, and some are crazy.'

On team discipline: "We appeal to the intelligence of the team and take it from there. Just being a wild man and making a lot of rules is absurd. I don't think that's the way to do it.'

About his old friend and teammate, Alex Karras: "We are looking for Greeks bearing gifts from Gary.

Commings claims be never establishes any

goals.
"That's probably an ignorant thing," he says. "But then I don't aspire to do a lot of things others do. To me the game is the thing - everything.

"I probably should sit down and set up some goals if just for our people at lowa. But the one thing I do want to do is go out and give 'em hell every Saturday."

Bob Commings has certainly been doing

that.

TROY TALK: USC holds a 5-2 edge in the lowa series and is 38-18-2 against Big Ten schools. The Trojans defeated the flawbeyes at lowa City last year, 27-16, as quarterback Rob Hertel, filling in for injured Vioce Evans, ran for two touchdowns and threw a 10-yard scoring pass to split end Randy Simmrin. Aleky Bell gained 183 yards in 26 carries against lowa last year. The Hawkeyes are 2-1 after a 7-6 upset victory over 10th-ranked Penn State Inst week, Iowa was beaten in its opener by Illinois 24-6, then walloped Syracuse. 41-3. Ourrierback Butch Caldwell has gained 159 yards in 35 rushing attempts and has completed 8 of 21 passes for 117 yards. After three games, the Hawkeyes rank No. 1 in the Big Ten in scoring defense, total defense and passing defense. SC's all-America offensive tackle Marvin Powell is expected to see his first action of the season tonight. He has been sidelined with a knee injury.

49er Willis is hoping to 'catch' fire

Hungry? Mike Willis could have STOCKTON taken'a bite out of the football.

"I was overanxious," admits Willis, recalling his inauspicious debut in Long Beach State's 37-0 blasting of Northern Illinois last week

That outing was Long Beach's third of the year, but Willis's first. The 49ers' leading receiver in 1975 with 39 receptions, Willis was sidelined the first two contests of 15 with a shoulder injury.

He had three passes thrown to him in the NIU game and...dropped all three.

"I was okay physically." Willis says of the drops.
"In fact, I was pleased with my patterns and my júmping

"CATCHING THE BALL is another matter. I was too auxious. I tried to grab the ball instead of just letting things happen, and I was jumping for passes I shouldn't have been jumping for.

"But starting Saturday night, things are going to be just like they used to be."

Tonight, at 7:30, the 49ers open their Pacific Coast Athletic Association schedule against host University of Pacific. The contest will be broadcast on KKOP-FM (93.5) and KFOX-AM (1280).

(93.3) and Ar UA-AM (120).

Dutil be suffered the shoulder injury in practice, three days before the season opener with Weber State, Willis had visions of a statistically spectacular year.

"I was thinking in terms of 50 or 60 catches," he

The injury ended those thoughts.

"My three-week 'vacation' was one of the most frustrating things I've ever had to deal with," says

"THAT WAS THE FIRST injury I've ever had that kept me from playing," says Willis. "I was all ready to go until that happened. It really brought me back down

The first thing dropped were the statisfical goals.
"I had to let my personal goals go," says Willis,

"and I really didn't mind doing it.
"Now, my main objective is to help this team win. I know I won't catch 50 passes, but I want the ones I do catch to mean something."

Willis matured dramatically as a receiver last year as a junior at LBSU after playing safety at Narbonne High School and slotback and split end at Long Beach City College, where he caught 19 passes as a freshman and 28 as a sophomore.

Last year Willis made the 39 receptions, for 701 yards, impressive statistics when one remembers that be caught only one pass in two different games, was burt in one game and ejected from another for trying to put a delensive back on his back.

"I-WAS EXPOSED to more passes last year," says Willis. "They were out there for me, and all I had to do was catch them.'

Catch them and try to survive. At 5-foot-11, Willis weighs only 146 pounds.

"I've tried to gain weight, but I can't," says Willis.
"It's the way I am; there's not too much I can do about

The lack of weight led to a familiar tune when Willis was being recruited two years ago.

"They all said I had talent, but...," recalls Willis. He chose Long Beach after being ignored by passing schools such as San Diego. He says, "I'm happy with my decision."

Phillies, Allen friends again

The Phillies and their unpredictable first baseman Dick Allen have kissed and made up, but how long the romance lasts this time is anybody's guess.

Heading into the team's final regular season series against the New York Mets Friday night. Allen was back and owner Ruly Carpenter said be was happy.

Allen allegedly told a writer that he would refuse to take part in post-season play unless his long-time friend, utility player Tony Taylor, was made eligible for the playoffs.

Carpenter said after a meeting at Allen's farm that Taylor will be on the playoff roster as a coach, and claimed that Allen was happy with the arrangement.

Burns Sahara leader LAS VEGAS (AP) - Big

George Burns, gunning for his first American victory at the end of his rookie year, surged to a sixunder-par 65 and established a one-stroke lead Friday halfway through the \$135,000 Sahara Invitational Golf Tournament.

Burns won the Scandinavian Open shortly after turning pro last year but has yet to win in the United States. He put together a 36-hole total of 132, 10-under-par for two rounds on the 6,800-yard Sabara-Nevada Country Club course.

The former Maryland football player, winner of \$80,771 this season, is no stranger to the top spot. He held the No. I position at both the Houston Open and the American Golf Classic, but was unable to bold it, fading to third in

"I've been in position but faltered the last couple of boles when the pressure was on me," he said. "I

Forego to pack 137 at Belmont Associated Press

Track conditions and weight could play a big part in borse of the year Forego's third try in the \$283,700 Marlboro Cup at Belmont Park today.

Martha Gerry's giant gelding has failed in his two previous attempts at the Cup, the first time in very sloppy going. Although the track was in good shape Friday, a light rain was falling and the forecast called for 30 per cent chance of rain today.

Also, the 6-year-old Forego will carry the most weight of his career, 137 pounds including Bill Shoemaker, over the 1% mile test. No thoroughbred has ever carried that much weight in the Cup. and Forego has never won with an impost over 135.

He carried 136 in the Haskell at Monmouth and finished third.

Forego, still the favorite at 6-5 and coming off a stunning victory in the Woodward, will be giving away 18 to 28 pounds to 10 rivals in the second event in the New York Racing Association's Fall Championship Series.

Second favorite at 3-1 is Dance Spell, 114 with Ruben Hernandez slated to ride. Honest Pleasure, 119 and Craig Perret, is the third choice at +1.

world record 1:56% per-formance, will provide some of the competition for Skedaddle N.

Gerald Longo will be in the bike behind B.C. Count, who has posted 11 wins in 26 starts for \$56,-988 in earnings this year.

One of the big question marks in the field will be H.A.'s Pet, who is on the rail. Winner of the \$100,000 L.K. Shapiro last year, H.A.'s Pet has been hampered by a cough. Eddie heeler will be at his contrels.

Driver-trainer Bobby Winters, a recent arrival from Chicago, will have his N.L. Skipper in the field.

Heroic Storm gets his sternest test of the meet-ing. Since being purchased from Australian interests. Heroic Storm has reeled off three wins in a row.

Completing the field will be Starred By Bret and Total Freight. Both borses are capable of taking the first prize. Total Freight already has posted a 1:581/2 victory over the Inglewood mile oval.

For once, the Tide is on the spot

Tenth-ranked Alabama probably hasn't felt so much pressure for a Southeastern Conference football game in years.

"Our backs are against the wall," said Crimson Tide linebacker Colenzo Hubbard. "To lose this game is to lose everything, We're playing for everything, just like Georgia is.

Alabama, seeking a sixth successive SEC champlonship in a dynasty unmatched in Southern football, can't afford to lose when the Tide tangles with sixthranked Georgia before an overflow crowd of 60,000 in Sanford Stadium today.

Alabama is rated a six-point favorite.

THE TIDE enters the showdown with a 2-1 record, the only defeat forcing them into pressure situations throughout the year since it was within the league, a 10-7 setback by Mississippi.

Georgia has rambled past three non-conference foes and owns a regular season winning streak of

"We've been thinking about this since the Cotton Bowl-last year," said Bulldogs backup quarterback Matt Robinson, who has passed for six touchdowns in three games. "It's not like we've been looking past anyone, but we were just looking at the opportunity we have in this game."

North Carolina and Missouri clash in a meeting of giant-killers. Carolina started Miami of Ohio's downfall and then handed Florida its only setback. Missouri's victims were Southern Cal and Ohio State, both on the road.

"It is a tremendous accomplishment to win at either place," says North Carolina's Bill Dooley. 'Missouri has won at both in a matter of three

The California Bears, with a rough three weeks on the road behind them, may have a rough after-noon ahead of them against San Jose State.

Cal's offensive line coach Jim Erkenbeck calls San Jose's defensive unit "as good a group as there is on the West Coast.'

BUT INJURIES have hit the Spartans' defense, and how well the front-line players hold up may determine whether San Jose can stay with the favored Bears at Memorial Stadium. Linemen Fred Ford and Deportes Washington were hurt late in last weekend's game at Stanford which the Cardinals won, 28-23, on two fourth period touchdowns.

San Jose (3-1) hopes to have its top running back. Rick Kape, available this week. The senior who rushed for more than 1,000 yards last year and got off to a strong start this season sat out the Stanford game with an ankle injury.

Two of the nation's top passing teams are expected to fill the air with footballs when Stanford goes into Michie Stadium to face the Cadets of Army.

Army boasts the nation's No. 1-ranked passing offense, the top passer and the leading receiver. Stanford ranks fifth in passing behind the 1-2 quarterbacking punch of Guy Benjamin and Mike Cordova

Learnon Hall has done all of Army's passing in leading the Cadets to victories over Lafayette and Holy Cross before last week's wild 34-32 loss to North Carolina.

The tall junior set West Point records against North-Carolina by completing 28 of 55 passes for 385 yards and a record-tying four touchdowns.

"IF THEY VOTE the Heisman Trophy on the basis of our game, (Tony) Dorsett will lose," said Duke defensive end Jeff Green, who was psyching himself up for today's game against second-ranked Pittsburgh.

Green said Dorsett, Pitt's explosive running back, should expect the same type of game he experienced in a 14-0 victory over Duke last year.

Dorsett gained only 84 yards in that game—his last sub-100 yard game. Ten subsequent 100-plus gams have made him a Heisman favorite.

"The defense was ready for them last year and we'll be even more ready this year." said Green.

Dorsett's answer: "I'll be there and we'll see if

he can back up his words. Anybody can talk, and there are some people who can back it up. If he's one of them, more power to him."

In another game of note, Notre Dame travels.to

East Lansing to face Michigan State, and an aerial duel is expected between the Irish's Rick Slager and MSU's Ed Smith. Slager broke a school record with a 12-for-14 day last week against Northwestern, while Smith connected on 18 of 29 flings in a wild 31-31 tie with North Carolina State.

Elsewhere around the Pacific-8, Washington Minnesota. Utah State and winless Washington State is favored at Idaho.

Tonight, Fullerton State visits Fresno State in a PCAA lid-lifter while San Diego State and David Turner, the nation's second leading rusher, entertains Brigham Young.

Maybe it should be called "shuttle diplo-

macy."
At least, that's what Veterans Stadium may resemble tonight—like a vision from Washington D.C.—when Long Beach City College makes its home debut against de-lending national champlon Orange Coast College.

Kickoff is 7:30 p.m. The contest takes on a split significance in the meaning of "shuttle" and "diplomacy:"

"We still have a lot of improving to do." Johnson maintained while tending last-minute prepara tions for Cerritos' second go-round with its new Orange County rival and its last test before initiating South Coast Conference play against secondranked Grossmont next

"WE IMPROVED a great deal last week over our game with Bakers-field," Johnson said. "Our defense really played 'em. But it is still not superior and is giving up a lot of yards (492 against Bakersfield, 390 against LBCC).

*Offensively, we threw well but did not run well," he continued. "We have two good quarterbacks in (Kevin) Hamilton and (Mark) Chandler and four good receivers, but I believe in good balance and I hope we don't have to continue throwing as much as we did last week."

Cerritos' freshmen quarterbacks went to the air 33 times against Long Beach, completing 19 for 205 yards and two touchdowns. Hamilton was 18 of

"We had a tough time on the ground against Long Beach and Cypress is the same type of team," Johnson said.

Vikings vs. OCC: It's a giveaway guys," according to back-field coach Will Shaw.

Orange Coast (2-1) hasn't had it easy against Long Beach (0-2) in their previous five meetings. Two years ago the Pirates outgained the Vikings 481-323 in total offense, led in

first downs 15-1 at the half, yet lost, 41-23. Last season LBCC was victimized 30-14 at OCC in what one Viking coach termed "our worst game of the year." Still, the margin of victory was the slimmest by any team against the Pirates enroute to their national championship. Orange Coast has never won at

The Golden Valley and Golden Gate Conferences begin longue play today. Silp and slide award—Harbor College has fumbled 11 times in bwo games. The 49 points given up by Cerrites against Rakerslicht were the most yielded by a Falcon team in 20 years of regular season play. Freshman Steve Cody appears to have won the starting QB borth at Santa Ana. In his first start last week against Cypress, Cody hit is-of-29 pusses for 179 yards. Meanwhile, Santa Ana may have set a South Coast Conference record for most penalties in a win. The Dons were hit with 160 yards in penalties during a 14-7 win. Mesa, drigwas fined 235 yards in

Advanced solar heating-cooling systems unveiled

By RALPH HINMAN Jr. Staff Writer

Unveiled in Orange County's Mission Viejo this week were two new \$47,000 houses equipped with rooftop solar heating and rooding systems along with other energy saving devices costing between them more than \$500,000.

Officially designated Minimum Energy Dwellings, or MEDs, these 1.150-square-foot, modified mission-style residences were designed to use less than half the energy required in conventional new structures bere.

Most of these homes' energy needs are supplied from solar sources, backstopped by natural gas for use on those occasions when the Southland's usually faithful sun fails to show. Energy stored in the form of sun-heated water serves at night or — up to a point - in times of shade and shadow.

Instigating a five-year joint research effort now resulting in these demonstration houses was the Southern California Gas Co. SCGC President Harry Letton randidly admitted, however, that in the beginning he and other company officers were the targets of raised eyebrows, incredulous-to-hostile questions.

"But we don't need to sell more gas," Letton explained. "We do need to save it."

He said that current patterns of energy consumption in California and the U.S. as a whole demonstrate this point. While national gas useage showed a slight decline, Californians burned more than ever before. Hence a continuing need to con-

Most of this \$620,000 was related to extensive research and development efforts rather than in structural costs or their energy-saving features, it was explained. Mission Viejo's usual contractors built the bouses

Scientific, engineering and architectural details learned from the project are to be shared with the general public, builders, government officials, equipment manufacturers, various gas utilities, other firms or agencies actively concerned with energy conservation.

The Mission Viejo Co., according to president Phil Reilly, plans to use many MED energy-saving features in its own future construction. Except for solar-heating equipment, most of the houses' energy saving features presently are available to builders at

competitive prices.

The experimental houses are not for sale, it was emphasized.

Instead, one of the two models will be leased for a year — at \$200 per month — to a "typical" young Southern California family. To be installed there is a family of three: Working father, homemaking mother and a solo child (the area is in the San Juan Capis-

trano School District).
Officials say the family has yet to be selected

but is expected to be in residence by November.

Measuring devices mounted in the house will transmit data to computers in the other home, itself

to be display publicly by appointment.

Final disposition of the homes has yel to be made, said Reilly. They could be stripped of expen-

At first glimpse, the hill-surrounded homes appear quite ordinary. Their essentially conventional lines — complete with red terra-cotta Hispanic tile roofs — are to be seen in many Southland areas.

level. These vacuum-tube solar collectors cover 320 square feet and will provide all the energy needed during and immediately following a sunny day.

Differences from the norm are even more appar-

ent in the two-car garages, their interiors now rather resembling a laboratory in some horror movie. Colls, pumps, tanks, telemetering gear (currently used testing the system) advanced-design air-conditioning and furnace gear could fit in neatly to the mad scientist's

Heating and cooling functions are accomplished by a device known as a "single coil air handler." Water, either chilled or heated by the sun, runs through the handler.

If solar-heated water stored below the garage in a 500-gallon specially insulated tank is insufficient to heat or cool, natural gas supplies the energy needed. Domestic water preheated by the sun receives additional heat, as needed, from a gas unit.

Southland spurs Calif. recovery, bank finds

California's economy is well on the road to recovery with Southern California leading the way, A. William Barkan, executive vice president, Southern California Executive Office, Wells Fargo Bank, reported this week.

Quoting from the bank's monthly Business Review, Barkan noted that Southern California is providing the main thrust during the ongoing recovery, showing strong performance in nearly all depart-

The state's other four regions also are improv-ing, although the Ceutral Coast area is responding slowly with the performance of all the leading indica-

tors lagging behind statewide averages.

The outlook for the Central Valley is something of a question mark, Barkan said, since agriculture has experienced some difficulties, and prospects for 1977 are heavily dependent on adequate rainfall this

The timber-rich North Coast and mountain areas should improve as construction activity picks up, the report noted.

"SOUTHERN CALIFORNIA has shown great strength during the current recovery," Barkan said. He noted that while employment increased by 94,000 between June 1975 and June 1976, the jobless rate fell

by nearly a full percentage point to 8.8 per cent.

"Although it accounts for only 14 per cent of the area's total labor force, bustling Orange County led the way, providing 33 per cent of the new jobs,

'Of the regional subareas, the San Diego metropolitan area has done poorest in recovering lost jobs.
While the economy improved over the year, unemployment remained at 10.7 per cent."

Retail store sales in Southern California rose by

Retail store sales in Southern Camornia rose by 17 per cent between the first quarters of 1975 and 1976, representing a "real" increase (after adjusting for inflation) of 11 per cent.

Southern California was by far the most dynamic region in the state for residential construction during the first half of 1976. The number of housing units that the state for the state of the state authorized rose by 97 per cent over the like period in 1975, accounting for two-thirds of the state total of

so, will is largely on Southern California that the state will have to depend for further significant improvement in its economy," Barkan said. "For the remainder of the year, Southern California will prob-

has not been able to overcome the lethargy of the region's dominant San Francisco-Oakland metropolitan area." Barkan said. "Regional unemployment in June 1976 stuck at 9.9 per cent, well above the statewide level." The dynamism shown by

During the last year, employment increased by

pearly 30,000, but the labor force also grew rapidly so the impact on unemployment was minimal. Santa Clara, with only a fourth of the regional labor force in 1975, accounted for two-thirds of the employment growth --- 20,000 jobs.

Retail sales increased substantially between the first quarters of 1975 and 1976, but the growth rate of 16 per cent was the lowest of the state's regions, the

Wells Fargo banker said.

The outlook for the Central Coast region through the end of the year is for further improvement, but the area's recovery rate will remain behind that of California as a whole, he said.

Business News in Brief

C. Townley Larzelere has been named facility manager for the \$1.5 million Westwings Aircraft Service Center under construction at Long Beach Airport. He will direct all phases of Westwings construction, development and supervision of tenant leases and, when the center is completed early next year, management of the one-stop aircraft facility.

Hartford Fire Insurance Co. has opened a new Long Beach area claims office at 3605 Long Beach Bivd.

Dr. Pepper Bottling Co. of Southern California has accepted the resignation of Rob J. Taylor, president and chief executive officer, who has taken a similar position with a company in the Midwest.

James Long of Long Beach is the new office manager of the East Long Beach-Lakewood Plaza branch of Coast Federal Savings and Loan.

The FAA has chosen Computer Sciences Corp. of El Segundo to improve and expand the automated computer services which help guide air traffic across the nation. The 36-month contract totals \$1.5 million.

W. H. Mastin Jr. has resigned as a vice president of Rajay Industries to form an independent aviation-engineering consulting firm in Long Beach. He will continue as a consultant for Rajay.

John Dawson of the Holiday Inn, Long Beach, has been named "Innkeeper of the Year" in the Holiday Inn midtown category and will be honored in Memphis Wednesday at the annual Holiday Inns international conference. Some 1,350 are expected to attend to discuss marketing and operational plans; the lodging chain has 1,711 inns.

The Jolly Roger, Irvine, has elevated Douglas L. Salisbury from executive vice president to president and has elected Ronald F. Higgins executive vice president. Arthur L. Salisbury, founder and chairman of the board, has been given the additional position of chief executive officer.

Worst week for

stocks

NEW YORK (AP) — The stock market recorded another sharp decline Friday as it staggered through the final session of its worst week of the

year.
The Dow Jones average of 30 industrial stocks fell 10.30 to 979.89, stretching its loss for the week to 29.52 points. It was the largest weekly drop for the average since it fell 41.87 points Dec. 1-5 of last

Losers outstripped gainers by about a 9-4 margin in the daily tally of New York Stock Exchange-

listed issues.

Big Board volume stepped up to 20.62 million shares from 14.70 million on Thursday.

SELLING pressure was concentrated in the noon-to-2 p.m. period, normally the quietest part of the trading day, when the Dow fell from a mlnus-3 reacting to minus 12. reading to minus-13, its low for the session.

Newton D. Zinder at E.F. Hutton & Co. said a primary cause of the sudden drop was a news story by Washington Post reporters Bob Woodward and Carl Bernstein on the investigation of President Ford's congressional campaign linances.

The story said the in-quiry was described as "significant" and 'seri-ous", and also reported that it had been intitiated by top Justice Department officials, including Edward Levi, the attorney general.

Adding to the uneasy atmosphere were govern-ment figures showing a 0.8 per cent drop in new factory orders in August after a downward revision of the July figure.

THE market has been acting concerned about the economic outlook since Tuesday, when the govern-ment's index of leading economic indicators came in with its first decline in

Myocardial infarction or foul play? 'Quincy' knows

By JAY SHARBUTT

HOLLYWOOD (AP) Jack Klugman, the untidy half of "The Odd Couple." now is on NBC's Sunday Mystery Movie. He plays "Quincy," a hard-charging city medical examiner who does autopsies and solves crime.

He has a nifty debut Sunday night in an opus that starts with him woo-ing his sweetie (Lynette Mettey) on his drydocked boat. The woo wanes right at sundown when Dr. Onincy is called to study the strangulation murder of a pretty city hall secre-tary at a nearby beach.

The call causes a lively 90 minutes of good humor. two more slayings and a discoverythat city hall is missing & million or so.

Now. Quincy, employed by the Los Angeles coroner's office, is no mere body inspector. He can detect murder most foul in the most innocent-looking subdural hematoma or myocardial infaraction.

HE PLAYS detective to prove his murder theories when cops don't believe him. This playing makes the cops mad, particularly his chief disbeliever, La-Frank Monahan (Garry Walberg's

In the case of the late in the case of the late secretary, there is no doubt she was strangled to death. Even Quincy agrees to that. Monahan has no doubt

He left Long Beach Friday in his trusty 22-foot motorboat, after traversing all but 200 miles of the United States.

In his uncovered outboard he carried only cushions, a sleeping bag, changes of clothing and a canvas tarp to rig across the bow as a tent at night.

HE CARRIED no food, he said, because the aim of his trip was more to see the country than to go boating. During the trip he always had to go into town, wherever town was, for dinner

"I wanted to see the country and see it on my own terms," he and see it on my own terms, said. For years, since seeing such transcontinental television programs as "Route 66" and "Here Comes Bronson," the cross-country journey has "been in the back of my mind."

The idea crystallized about May 15, as his 30th birthday approached.

That birth anniversary "does become a watershed," he said. "I decided I probably was going to spend the rest of my life where I was . . . I always felt I wanted to see the states, and my particular vehicle was a boat.

With this aim to guide him. Gillooly set out west along Long

Thence he beaded along the Illi-nois River to the Mississippi, on to the Missouri River at St. Louis, and into South Dakota and Montana, where a 200-mile truck portage to Lewiston, Idaho, was required.

FROM THERE he headed down the Snake River to the Columbia, out into the Pacific, and south to Long Beach.

The going got "real rough" on the Great Lakes and the California coastline, he said.

His roughest going was on Lake Erie, where the water was so shallow, in places only 70 to 100 feet deep, that the waves came "very close together." It was "very rough," and "very rough on the

In that part of the voyage Gillooly said he made only five miles a day. "I was just physically ex-hausted."

On the passage across the west end of the lake he was bothered not so much by heavy water as by heavy traffic. "There's too much heavy boat traffic there," he said.

Other more difficult parts of the route were along the Pacific Coast. The most dangerous part of the journey, he said, was crossing

Though this is not an uncommon occurrence, Gillooly's particular passage over the bar was 'probably no worse than coming into San Pedro Bay."

Farther south, in the vicinity of Point Arena, Gillooly ran into fog and rough weather. "I didn't run into another boat for two hours,"

His 22-foot, open-console fishing boat and 200-horsepower outboard served him so well throughout the sojourn, Gillooly said, that he's counting on them to take him home after he reaches San Diego.

From there he plans to have the boat trucked to Brownsville, Tex., for the return trip.

Among the most remarkable sights along his voyage were sailing through downtown Chicago on the Chicago Sanitary and Ship

SHORTLY AFTER plying the water past pine forests in northern Michigan, Gillooly found himself sailing through skyscrapers and traffic jams in the windy city, with the natives waving courteously from the shore.

On the Columbia River past Mount Hood he found "gorgeous" scenery. Along the Snake-Columbia section of his journey Gillooly drop-ped "almost 1,000 feet in 500 miles" on the rivers' locks.
In spite of the scenery and

Two girls along the route said "I want to come along," and joined him for one or two days, he says. "People have been just as gra-

Court to rule on Cal., L.B. tidelands oil revenue dispute

By CHARLES SUTTON Staff Writer

The state attorney general's office has asked Los Angeles Su perior Court to settle a \$4 million dispute between the State Lands Commission and the City of Long Beach over money earned from tideland oil revenues.

The dispute centers around the city's practice of placing the revenues from the sale of tidelands oil in an account that accumulates interest during a 30-day accounting

For the past 20 years, the city has kept the interest, forwarding the state its share of the revenues at the end of every month.

The state now contends that the city's practice was improper, and that it should have credited the accumulated interest to the state's share of the tideland split.

The city has divided its tideland revenues with the state since 1956 and currently receives \$9 million a year as its share. The state's share running around \$85 million a

According to Deputy Atty. Gen. Alan V. Hager, the monthly pay-

ment schedule is necessary for necounting purposes. It also enables the city to make its deductions for administrative costs.

The state claims, however, that the city — by keeping the interest every month — is getting \$100,000 a year more than it is entitled to. It says the Interest should be considered oil revenue because, as Hager put it, "Interest on principal becomes part of the principal.

But the city argues that the interest is not oil revenue and therefore shouldn't be applied to the state's share.

Beyond that, says Deputy City Atty. Elnar Petersen, the city is required by the City Charter to keep the interest.

The charter is very specific, he says. It declares that "interest, earnings, income or profit from the investment of money deposited to the credit of the tideland oil revenue fund . . . shall be deposited in the city treasury to the credit of (the city's tideland operating) fund."

L.B. renewal unit gets new director

By MARY ELLIS CARLTON . Urban Affairs Editor

Ronald P. Ramsey, who has broad experience in the fields of redevelopment, city planning and building inspection, has been named executive director of the Long Beach Redevelopment Agen-

Screened from a field of 69 candidates, he was the unanimous choice of the agency's five-member board which met in open session Friday afternoon to name a new

Presently executive director of the Alhambra Redevelopment Agency, Ramsey was told of his appointment Friday evening and agreed to start his Long Beach duties on Nov. 1 at a salary of

Prior to assuming the Alhambra post in 1970, the new appointee served for two years as planning director for the City of South El Monte and for two years prior to that was assistant planning director in Alhambra.

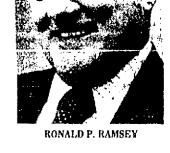

RAMSEY ALSO served as chief building official for the County of Los Angeles from 1954-1966 and, in earlier years, worked with construction companies both as an accountant and as a land development planner.

A specialist in urban planning,

Ramsey has a master's degree in public administration from the University of Southern California, a bachelor's degree in business administration from UCLA and a two-year degree in architecture from Glendale College. He also attended a graduate

seminar in urban design and historical preservation at Cornell University, New York, on a scholarship grant from the Graham Foundation.

James Hankla, who as director

of the city's Department of Community Development will supervise Ramsey, endorsed the selection.

"I feel Mr. Ramsey will bring to the City of Long Beach valuable experience in redevelopment and will add immeasurable to our service. will add immeasurably to our ca-pacity in dealing with the overall redevelopment problems and opportunities of the community."

Albambra's 385 acre industrial redevelopment project, it was noted, is comparable in area and intent to Long Beach's Westside project, stymied for more than a year by litigation.

The Alhambra project, started

in 1969 and now 70 to 80 per cent complete, is regarded by some urban planners as one of the most successful projects in the south-west, Hankla pointed out.

'Meet police' program is launched by LBPD

A "Meet your police" program, designed to bring citizens and local beat officers closer together in fighting crime, was launched Priday by the Long Beach Police Department.

A citizens' group interested in having its area patrol officers at-tend a meeting can now contact the police public affairs office for further information, according to Lt. Eugene Brizzolara.

Officers from various patrol watches who have volunteered for the program, developed and coordi-nated by Officer Al Covarubias, will attend meetings and answer

questions, Brizzolara said. Officers from motorcycle patrol and the juvenile division may be

joining the effort, too, he noted. "We want the patrol officers to

get to know the people on their beat on a one-to-one basis as much as possible," explained Brizzolara. The police at the meetings will answer questions and tell citizens

how they can help police combat

The program was first outlined to the city Human Relations Commission in June by Covarubias.

The commission recommended

that city facilities such as the neighborhood centers be made available for meetings with police officers. Brizzolara said the program

would be handicapped initially by "the extreme shortage of units."

If the department is expanded, the neighborhood patrol officers could broaden their activities to include helping citizens burgiar-proof their homes with inspections, start neighborhood watch programs and generally get more involved in their beat areas.

"Our purpose is to instill confidence in the police department," Brizzolara said. "Without the public getting involved, police can do nothing to stop the influx of crime." .

Decline in revenue spurs marina study

Paper accused of election control

By DENISE KUSEL

Unless something is done to raise the city revenue, there is going to be a showdown over the decreasing availability of tidelands oil money and increasing cost of maintenance of existing recreation facilities, Councilman Wes Carroll

Jr. warned the Lions Club Friday. "It's because of this lack of cash generation that I've proposed (to the City Council) a feasibility study of a downtown marina," Carroll said, acknowledging the financial success of the Long Beach

Carroll predicted that unless an alternate source of revenue is found, once the tidelands oil money has dried up, the city would not be able to maintain its present recrea-tion facilities and extensive services to the elderly.

Included in the nonprofit-mak-

ing recreation facilities currently financed by tidelands oil money are Belmont Plaza Pool, the city lifeguards, operation and maintenance of beaches, Marine Stadium and Palment Bio.

According to Carroll, the pro-posed 1,750-slip marina would be owned and operated by the city and would feature a fishing platform, bicycle paths and a shoreline promenade "reminiscent of the old Rainbow Pier" which was drained and filled in the early 1960s.

I.P-T editor's grandson is found dead

The body of the 12-year-old grandson of Miles Sines, executive editor of the Independent, Press-Telegram, was found just after dawn Friday at the bottom of a roso embank ment about one mile from San Diego Stadium, San Diego sheriff's deputies

Departies said the boy. Donald Miles Whaley, re-ported missing a week ago by his mother, was found by a construction worker at 7 a.m. beneath a 15-foot bridge over a damp creek on property owned by a sand-and-gravel company.

An autopsy was pend-ing, but deputies said it appeared the youngster died of a broken neck apparently suffered when

he fell from the bridge.

Dep. Jim McCain said death may have been accidental "but at this point we are irrestigating it as a homicide."

McCain said the boy, who lived with his cooker Sanira Jean Whaley, of El Cajon, was found in miles from home in an unincorporated county area east

ei Mission Gorge Road. The youngster was wearing the same brown denim jacket. I-shirt and slacks he was wearing when reported missing, McCain said, adding there were no spaceral marks of violence on the body.

More Born Again

Religion Editor:

What must I do to be saved? to be Born Again? A person must realize that he is a sinner; for the Bible says "All have sin-ned and come short of the Glory of God," and There is none righteous, no, not one.

A person can be morally good, self-righteous, educated, even religious, and still not be saved. He must come to Christ and confesss that he is a sinner and ask Jesus to come into his heart and life just as

Jesus said "He that cometh to me I will in no wise cast out." Jesus takes care of the rest. He makes of us a new creation, "Old things are passed away, behold all things are become new." A person must repent of his sins and decide to obey and follow Christ.

There are only two classes of people living on earth, the saved and the unsaved the Born Again and the not-born again. There is no neutral ground. And there are only two places to spend eternity: Heaven and Hell. Hell is not a very popu-

lar subject in the pulpits of our churches today; yet it is, nevertheless, a very real and literal place, just as Heaven is. The spirit and soul of a person lives forever in eternity, one place or the other, even after the physical body

There is no excuse for anyone to be lost once they have heard the simple truth of the Gospel of Christ and how He loved them and died for them "For by Grace are ye saved through Faith, and that not of yourself, it is the Gift of God."

MARJORIE FLORENCE Long Beach

I had the pleasure of reading your interesting article in the paper the other night and it moved me to send you my testimony of my fantastic BORN AGAIN EXPERI-ENCE!!

It's in the words of a poem, but it is exactly the way I feel and I have great confidence that it will explain the BORN AGAIN EXPERIENCE that most Christians have, and will experience if they will just let CHRIST rule in their lives.

FROM DARK TO LIGHT! There once was a time

I did not know God's Religion Editor: purpose for me.

was lost in a world with sin all around, Searching and searching, and by the Lord I was

He died for my sins and to set me free, And in my heart He will

always be. I walk by faith and not by sight, And JESUS is truly my guiding light.

I LOVE and ADORE Him with all of my heart, And I THANK Him and PRAISE him for my life's NEW START!!

I want EVERYONE to know what CHRIST has done for my life, and I pray that they will give Him a chance to do the same for their lives.

The true BORN AGAIN EXPERIENCE is, that you come out of total darkness into the perfect Light, which is our LORD JESUS CHRIST.

"I AM the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life."

John 8:12

Gayle Smith Shekainah Fellowship

I was born again by water and the Spirit 20 years ago at the age of two months. That was the day of my Baptism, the day God adopted me as His own, the day I became a member of the Christian Church. This was truly a miracle of God, as much a miracle as my first birth. Symbolically washed with water and really washed from sin by the Holy Spirit, I then was accepted by Christ as one of His children, chosen for the fellowship of heaven. This was not an act of man -myself, my parents, the minister, or anyone else it was purely an act of God; that is why He can work as well with an in-

fant as with an adult.

Do I remember my being born again? No. Was I active in it? No. It was similar to my physical birth, but just because I was not active does not make it any less valid. My parents made a contract with God — they would teach me; He would come to me as the Holy Spirit. God never breaks contracts, and by His Grace my parents kept theirs. When I was old enough I was given the priviledge to confirm this contract. In the Rite of Confirma-

tion I did not become a

I recently celebrated my 75th birthday. For the past 65 years I have been interested in Jesus Christ and His great but not fully understood sacrifice. I have attended many churches over the years,

both here and in Europe.

I am sure that if ten people each from all of the Christian denominations slept for the last 65 years and were awakened today and told to attend the same denomination as be-fore, they would find . . . that none of the denominations believe or teach the same things they did 65

years ago The letter of Bernard B. Ringer of Sept. 5 indicates he has found the same thing to be true. Although he is talking of only one church, he finds that even from community to community the same denomination is not the same.

hatton is not use same.
About 35 years ago I recall reading in The PressTelegram a statement by
the leader of the Episcopal
Church. He said, "The tenets of our church are too old; in fact, they are 265 years too old."

Truth does not change with time, so all these changes raise a blg ques-tion: Are the Christian churches getting away from the truth, or are they just getting around to it? A man named John Loo-

mis quoted II Timothy and said we are living in that day foreseen by Paul, that it is a waste of time to listen to tripe.

Are we really living in a

time when fables are being preached instead of truth? Could we endure Could we endure sound doctrine if we beard

Issues, issues

Religion Editor:

In your Sept. 25 issue you infer that you deplore Jimmy Carter's having been interviewed by Play boy. However, you devote almost 10 column inches to a discussion of sex, religion and politics, but devote less than 3 inches to a mere listing of problems that Carter and Ford should be facing and talking about.

If you are seriously interested in the views of concerned religious persons, I urge that you subscribe to and read the Washington and California Newsletters of the Friends Committee on Legislation. The August-September

supplement of the California Newsletter presents 8 pages of comparisons be-

Christian, I publicly affirmed that I was one already. Sure, people can and do break their con-tracts with God; sometimes they reform them later, sometimes not, but I praise God that I received the Baptism of the Holy Spirit in infancy and had Him as a Guide in my life from the very

tween Carter and Ford. These comparisons include biographies and a list of appointments made by each candidate while in administrative office, and more important, an as-sessment of each candidate's position on important issues such foreign policy and military spending, arms control, international development amnesty, jobs and infla-tion, welfare reform, civil rights, equal educational opportunity, energy and environment, agriculture, tax reform, women's rights, health, handguns, criminal justice.

A reading of the above mentioned 8 pages will provide a broad understanding of Carter's extensive thinking and writing on truly important political isssues that are of moral concern. I believe that many of your readers are concerned about the truly important political issues and that they de-plore the tendency of the mass media to emphasize sensational subjects such as sex rather than solid issues merely listed by you.

WHOSE SIDE?

Religion Editor:

Your article of Sept. 25 made me wonder whose side you're on; religion being the study and love of God. Do you "privately and seriously" think a lov-ing God would be happy about the 1 million abor tions last year?

You say, "Sex and religion are prvate matters." (See enclosed article about politically enforced steri-lization in India). How private is that? even to the arrest of those who do not comply.

Religion Editor:

When the chief priests and scribes asked: "Is it lawful for us to give trib-ute unto Caesar or no?" Jesus said in speaking of Caesar's penny: "Render unto Caesar the things which be Caesar's and unto God the things which be God's." It is my belief this was meant to include the use of any emblem or token of honor.

I love our beautiful Stars and Stripes and remember us a child the thrill I felt upon seeing the treelined streets of our neighboring town criss-crissed with red, white and blue bunting and our flag flying gloriously from every lamp post, doorway and post for Decoration

However, in reading about the great architecture of the churches in Long Beach, I wonder if the sanctuary of each displays our country's Flag on one side with the church banner on the opposite side.

I have entered many churches throughout my 72 years and often re-ceived a jolt or at least a feeling of annoyance when during a moment of reverie or engrosssment in the music or sermon. these flags thrust themselves upon my consciousness. I pay tribute to our American Flag in its place in community and patriotic events, but it is distracting to me to have it usurp attention while I am worshipping in God's house. Becaused I have not had

the meaning of the church banner instilled in me, it has received little favor from me. I am sure there are many in the congregations of our churches who give it no more than a passing glance and are not even aware of its symbols.

I have heard no sermons regarding the Christian Flag to inspire a regard for it such as most people hold for their coun-try's Flag. By rights, one's respect for it should

one's respect for it shows be even greater than for any other flag or symbol.

The church Flag should reign alone and if it is displayed, why not have as a part of the regular worship service the formality of giving our pledge to it in open cere-mony? It is a beautiful pledge and we might gain deep respect for it as wo

say together:
I pledge allegiance to the Christian Flag and to the Saviour for whose kingdom it stands, one brotherhood uniting all mankind in service and in

Each Flag is due its sspecial honor and each has its sown place for recognition. Don't let Old Glory and what it represents outweigh the wonder and joy of worshipping God. Use each banner for its own purpose and not to detract from our sacred services.

Roman Catholics will be asked Sunday to sign a pleage affirming their commitment to "the sanctity of life" and to take action in the anti-abortion

The pledges, to be taken during October ("Respect Life Month"), are central to the campaign to garner support for a constitutional amendment banning abortions.

In the Los Angeles archdiocese and Orange diocese, use of suggested pledges may depend on the individual pastors because that part is being mailed from U.S. Catholic headquarters in Washington.

Being interested I asked the foreman, a friendly sort of fellow, to explain the sign. He said that, to be a good bricklayer, the workman had to get into the rividim of the 3rb — pick up a brick, lay a brick pick up a brick lay a brick — and to do it without jerking or waste motion and in a smooth. This incident reminded me of my friend. Mason Roberts, who was a vice president et the General Motors Corporation and General Manager of its

Frigidaire Division at Dayton, Ohio. He says that the best workman is the man who gets into barmeny with the machine which be operates. "A machine," be points out, "is made up of component parts which work logether on the thythmic laws of the universe. The best machine is one in which there is the least resistance in the working parts. The more, therefore, that a machine is in harmony the more effective it is and the longer it will last."

A human being also is effective to the degree to which be eliminates resistance and lives and works in the flow of creative and renewing energy. If a per-son is in harmony with other people, and with himself also, he will at day's end have energy left over. He will exter his tob and perform it in 2 DAT mal, natural manner. He will be a skillful person and set a lot of extra joy our or line.

There is a basic rhythm in all things — in an auto-mobile, in a dishwasher, in a washing macine. There is a rhythm to cooking a meal, to beging house, to doing office week to working with the soil. When you get in tune with the infinite, that is to say, in harmony with the essential rhythm of life. your efficiency is really stepped up. An inner spirit of harmony releases harmony in the individual And a harmonious contact with tile and its activities results in increased skill and the conservation of energy. This is the skill of the easy-does-it principle.

If God, then, so clothes the grasses which live to-day in the fields and will feed the oven to-morrow. will be not be much more ready to clothe you men of lime faith?

SUNDAY HIGHT BIBLE INSTITUTE A Study of the Spiritual Gifts MARV FOGLEMAN, SPEAKING

POSITIVE THINKING Ex Norman Vincent Peals BROTHER JIMMY LEADS PRAYER One Sunday morning in Plains

By KENNETH A. BRIGGS c.BT N.Y. Times News Service

PLAINS, Ga. - Clarence Dodson called on "Brother Jimmy" to open the Sunday school lesson with a prayer. Jimmy to type the Santal school residential candidate, rose to his feet, closed his eyes and astred the Lord to help "remove the obstacles that keep us from being close to Thee," for "the strength to overcome weakness" and for the gift of compassion.

When Carter finished, he took his seat and listened

attentively to Dodson, a veteran of 35 years of church school teaching, instruct the 15-member men's Bible class in the basement of the Plains Baptist Church on "being set free in Christ."

The roots of Carter's faith lead to the particular country church. Among Southern Baptists, there is no such thing as "the" church. One's church is the local church. It decides its own affairs, worships as it pleases and develops its own style.

Continuing, the lean, soft-spoken Dodson talked of St. Paul's distinction between those who merely go through the motions of religion and those who feel impelled by faith to "walk with Him everyday."
"A MAN CAN come down the church sisle, take the

pastor's hand, become beptized and a member of the church," Dedson said. "Then be might sit back and think be's got a ticket to heaven. But it doesn't work

Being born again into the Kingdom of God is just the beginning of our Christian walk," he continued, an open Bible in his outstretched hand. "Bay by day we most seek the will of God."

To Dodson and many others in this Southern Baptist congregation of 350 members, the language of salvation common parlance and those who understand it have been somewhat surprised to find that many outsid-

ers are pursied by it. Plains Baptists have first-hand knowledge of all the fass as reporters and visitors ask them to define the

term "born again."
"It's hard to explain." says Hugh Carter, the candidate's cousin who is Clerk of the church. "The church has just always been the biggest part of my life. When's person realizes that Jesus Christ died for our sins and is willing to say if publicly, this is the rebirth."

THERE IS GREAT pride in the Baptist "salvation in the baptist "salvation in the baptist" persons here and the church that stands for

by faith" tradition here and the church that stands for it. Among other things, the presence of so many outsidmany stating no religious faith has given these Baptists an unprecedented chance to "witness," another

of the familiar phrases that means to evangeline. The Rev. Bruce Edwards, who took over the pulpit almost two years ago, says the situation is "something every preacher wants." When he first arrived, he says, "the people needed sermons that would help them grow and give them a besser foundation for the faith they already had.

The church of Jimmy Center's upbringing has evolved somewhat over the years. For one thing, the emphasis on predestination and starn repentance has largely given way to a more positive stress on salvation as a joyful answer that can be irrely chosen. For another, strict Biblical fundamentalism has undergone a moderating influence to the point where few would insist that scripture carnot err.

Most rural Southern Baptists are slowly experience some changes. The pace is faster among those in the cities and the suburbs. Some churches are more conservative than others over such matters as whether the Bible can be taken literally. Some still refer to its traditional definition as a moment of high emotions

Since Jimmy Carter was nominated at the Democratic Convention in July, the church has grown accusiomed to overflow congregations — swelled by the Secret Service and members of the press, among others and its members have patiently responded to such aunoyances as the piliering of song books by souvenir hunters. For the first time in its history, however, the church is reluctantly locking its doors to cut down on

The church's annals show that blacks and whites did worship together briefly at Plains Baptist in the last century, as Jimmy Carter says in his autohiography, "Why Not the Best?" and it was a breakthrough. But a notation from 1866 indicates that whites considered the arrangement temporary, urging blacks to learn how to lead a church. By 1870, blacks had their own church.

BUT DESPITE CARTER'S successful effort several years ago to persuade the church to overturn its decision to bar blacks, the victory has had little practical affect. The church remains all-white, and there is virtually no contact by the church with the black community. Some jitters went through the congregation a few weeks ago when four black women, visitors to Plains, were nervously escorted to a new.

The beneficiaries of the church's social conscience are often more distant. Of this year's budget of \$37,000, 15 per cent is designated for national and foreign mis-

According to the church's "Articles of Faith," Piains Baptist tenets include belief in the Trinity, original sin, justification by faith, resurrection and Christ's final judgment of the world. It also holds that there is eternal punishment for wrongdoers and eternal joy for the righteous. The other leading belief is the baptism of adults by total immersion.

IN THE MEN'S Bible class the other Sunday morning, Dodson, toward the close of his 45-minute explication of a portion of St. Psul's Letter to the Galatians,

told a story to illustrate the value of humility.

The story concerned a man who "rose in life" to be prime minister. The man's rivals were jealous and sought to "find fault with him so they could trip him They could find nothing defective in his character but finally discovered that the man went into a closet for *2) minutes a week.

They complained to the king, who investigated. The prime minister explained that he went into the closet in order to put on the shpherd's clothing be had once worn. "For he was atraid he might forget," Dodson continued, looking out toward the spare walls and rows of folding chairs where Carter sat. "He said he went back to remind himself what he had been and might not be if not for the change that had come into his life.

MAY I HAVE A MOMENT OF YOUR TIME?

For two or three Sundays, I have been preaching a series of messages on "The Man Who Carne To Jesus By Night"; his name was Nicodents, and there are several interesting things about him, not the least of which is that he was the ossessor of an open mind. He was willing to learn.

He would not permit prejudice to close the doors of his mind to the truth. Most of his friends condemned Jesus of Nazareth, writhout reality knowing Him. They had already decided they would not accept His claim and so, for the morned, they simply turned their backs and walked away.

It is an easy fining to close our minds to what we do not care to accept, to shut our eyes to what we do not want to see, to close our ears against words we do not want to see, to close our ears against words we do not want to see, to close our ears against words we do not want to see, to the preson who refuses to believe, to see, to hear, time this consortly to learn, to know.

This next Lord's day, both morning and evening, we will further study the story of Nicodentus, learning from the very Scribtures why he decided, at great personal cost, to become a disciple of Jesus. Sunday evening, tho, we will see some thrilling pic-

Orange County Deputy Dist. Atty. David O. Carter took the witness stand Friday in Santa Ana Municipal Court to defend his bolding a "private" lineup for prosecution wit-ness Curt Eddy in preparing the case against two defendants in the kidnapmurder of Johann Seigman

William Paul Gullett and Ronald Lewis Ewing are accused of kidnaping Mrs. Seigman from her Rossmoor home Aug. 25 and murdering her when the plan to get an esti-mated \$57,000 in ransom from her Long Beach neach manager husband failed.

Carter, who has presented the state's case against the two Beliflower men during the week-long preliminary hearing, testified for 40 minutes and de fended introducing Eddy to the Seigman family at an informal meeting in the district attorney's office Monday morning.

After Carter's testimony and extensive cross-examining, Judge Robert E. Law denied a motion by defense attorneys Marvin Cooper, representing Gullett, and Michael Becher, representing Ewing, to dismiss the charges on the grounds that the "lineup" for Eddy was "suggestive" of his innocence.

Cooper and Beecher had argued that Eddy was shown to the Seigman family in different circumstances than the two defendants were, in that Gullett and Ewing were dresssed in prison clothing while Eddy was in civilian clothes and that Eddy was alone in the district attorney's conference room while the defendants were in a group of men at the county jail.

They further argued that the entire atmosphere of the two lineups varied enough to put the stamp of

Judge Law also denied

a defense motion to strike the testimony of Mrs. Seigman's husband, Long Beach supermarket man ager John Seigman, and her three children, Cathy, 19, John Jr. 17, and Paul, 11, because none of them could positively identify either Gullett or Ewing as the men who kidnaped

Although the judge had previously indicated his desire to finish the bearing by Friday afternoon, he finally ordered it resumed at 10 a.m. Monday.
At that time he will

hear defense motions to strike the "special circumstances" clause from the indictment, which allows the death penalty to be imposed under a new Califor-nia law, and also will decide whether bail will be set if the men are held to answer in Superior Court.

Guliett and Ewing are charged with four counts

of murder, with Gullett facing an additional charge of being a felon using a firearm in commission of a crime.

Earlier in the day, Guy Cooper, 16, the brother of Ewing's girlfriend, testi-fied that Ewing and Gullett were at his sister's Bellflower apartment watching television from around 6 p.m. until be-tween 9 and 10 p.m. on the night of the kidnaping. Earlier in the hearing,

the girlfriend, Dora Parker, testified that Ewing was at the Howard Johnson restaurant-bar in the Cerritos Mall, where she works as a cocktail waitress, from a little after 9 p.m. until mid-

However, a patron of the bar, Sylvia A. Hawk, testified Friday that she saw Ewing come into the bar with another man who' "resembled" Gullett shorty before the midnight closing time.

THE governor acted shortly before expiration of the 30-day deadline, after which the bill would have become law.

It was the second straight year that Brown had vetoed a secret-files bill. Like last year, he said the measure was too costly.

Brown also told reporters that the Roberti bill would "make fishing expeditions through the government bureaucracy and it actually threatens privacy by forcing a cen-

Chuck Harper, a program budget manager for the state Finance Depart-ment, said Brown's executive order requiring state agencies to make certain records available for inspection will cost about \$1,150,000 a year, but that the University of California doesn't have to follow an executive order.

If it voluntarily obliges, UC's costs will be up to \$400,000 a year.

The main difference, Harper said, is that the Roberti bill required a record kept every time a person looked at his or her file, a record to be maintained for seven years. "That's expensive."
Harper said.

Roberti said Brown's Finance Department played games with his bill, giving different cost estigres, and other security bullers owning or holding 1 percept or more of total amount of bonds, mortgages, or other securities are: Noon. mates as the bill York, N.Y. 19005; Myles B. Amend, 69

HE SAID his bill would have let the secretary of state decide how and what records should be opened.

Brown's order requires a state agency to make available an individual's records, permit a state-ment of dispute and agree to destroy an erroneous file. Disputes over errors can be settled by a state hearing officer.

Exempt from the order, as in the Roberti bill, are criminal and psychiatric investigatory records and files relating to tests.

PASADENA (AP)-Viking 2's chances of finding fife on Mars dimmed further Friday when the robot's second organic chemistry experiment drew a blank.

For the second time in as many days, Viking 2 told Earthmen it could find no organic materials in the red dirt, all but lay-ing to rest the Viking mission's hopes of finding life-past or present-on

Organic compounds form the basic structure of living things on Earth and are found in living creatures as well as in the remains of Earthlings cons past.

If Mars had ever supported life as we know it. traces of organic com-pounds could likely be found in the red soil.

That is exactly what Viking 2 has done—twice with no success.

In the latest test, a complex instrument called a gas chromatograph-mass spectrometer baked a small bit of soil to 350 degrees Fahrenheit in an attempt to break up and identify any organic com-pound that might bave been imbedded in the soil.

It found some organics-but only those that Viking 2 had brought with it on its odyssey to Mars, remnants of some cleaning fluid.

Scientists, however, were not quite ready to put the last nail in the coffin on the question of life. They are waiting for the results from last-ditch searches for organics, including a dig underneath a rock to come next week.
